## Navy Chief Inspects H.M.C.S. Naden

Vice-Admiral Percy W. Nelles, R.C.N., familiarizes himself with the operational details of H.M.C.S. Naden No. 1. He is shown above inspecting the guard drawn up in his honor, accompanied by Lt.-Cmdr. St. Clair Balfour, R.C.N., with drawn sword. Walking behind the admiral is Capt. F. G. Hart, R.C.N., officer commanding H.M.C.S. Naden. See Page 18 for story.

# Allied Planes Blast Rommel's Supply Lines

CAIRO (AP)—British fighter-bombers, in day-long assaults despite dust storms, smashed at Axis vehicles and landing grounds in the Western Desert, following a sharp night raid by ground troops who destroyed a number of German cannon and killed and captured some of the enemy, a communiqué announced today.

The British planes concentrated particularly in the southern sector some 70-odd miles west of Alexandria, where Field Marshal Erwin Rommel has foiled back his line to avoid being outflanked.

An unstated number of Axis planes, refuelling on the landing ground at El Daba, were attacked and eight were shot out of the air during the day's operations.

Like the land raid Tuesday night, the aim was to keep the Axis invaders shaken up and deprived of sorely needed rest and reinforcements.

Six planes were lost.

## NO FRONTAL CHANGE

For the last 24 hours no material change has been reported on the 50-mile front curving south and west from the El Alamein area.

But while the Germans dug in, Gen. Sir Claude Auchinleck continues to stab at the enemy flanks, pinching off segments, taking prisoners and destroying tanks. Primarily, he is robbing the foe of the rest he needs before undertaking any new effort to burst through the desert corridor toward the Nile valley.

A trail of burned-out German trucks on Rommel's land supply route is testimony of British air efforts to prevent reinforcements from reaching him.

## AIR FORCE GROWS

The R.A.F. disclosed, meanwhile, that the Allied air forces are in a stronger position now than at the start of the campaign six weeks ago.

Against the loss of 110 Allied pilots, some of whose planes have been repaired and put back into the fight, it said, the Axis definitely has lost more than 284 planes aloft and on the ground and hundreds more are listed as probably shot down.

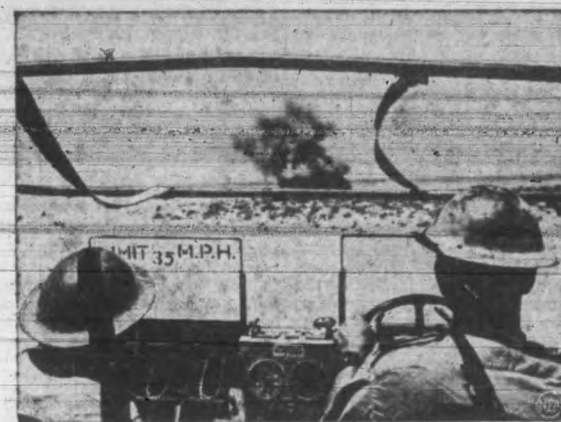

Larry Allen, Associated Press correspondent with Britain's Mediterranean fleet, reported Wednesday night that naval forces are keeping ceaseless vigil over a wide area with ships and planes to guard the Allies' supply line and to attack if Axis attempts at sea-borne reinforcements for their desert fighters are discovered.

## CLAIM 2 SUBS SUNK

ROME (From Italian Broadcasts, AP)—The Italian high command claimed today Axis desert forces had driven back British units in the El Alamein zone of Egypt and occupied important positions.

Axis fighters were claimed to have shot down eight planes in the desert warfare and 10 more over Malta.

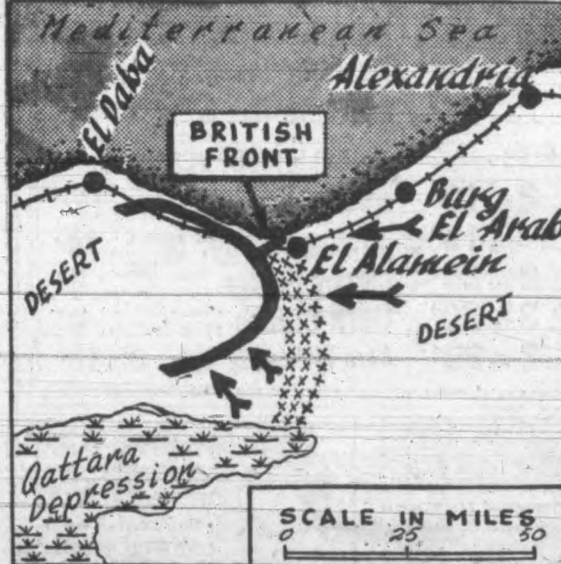

"In the Mediterranean," the communiqué said, "light (surface) units and air reconnaissance planes escorting a convoy sighted two enemy submarines, which were successfully sunk by the destroyer Pegaso, commanded by Cmdr. Francesco Acton."

BRITISH VEHICLES-KEEP MOVING—Presumably at less than 35 m.p.h.—as bomb explodes ahead in Egyptian desert fighting. British won't let speed limit sign on windshield hold them back if they get Germans on the run.

HE'LL STOP NO MORE BRITISH TANKS—An Italian anti-tank gunner lies dead beside his shattered weapon, above, in a desert gully. The photo, just received, was taken as Allied blows were rained by air and ground forces on Rommel's columns.

WHERE BRITISH CEASELESSLY STAB AT AXIS FORCES—This map shows how the enemy line in Egypt curves south and west from the El Alamein area. British thrusts bent back Rommel's southern flank.

## Chinese Entrap 30,000 Japanese In Counterblow

CHUNGKING (AP)—The Chinese Central News agency reported today that the Chinese had achieved a smashing comeback in central Kiangsi province, trapping 30,000 Japanese troops, killing or wounding 2,000 and capturing large quantities of material.

In eastern Kiangsi the Chinese reoccupied the important highway towns of Nanchang and Jhwang, the agency said.

A Chinese communiqué said only that the Japanese were checked at several points in central Kiangsi province and that 1,000 casualties were inflicted on the enemy in a battle that began two days ago and was still in progress.

A Chinese spokesman had said earlier that the Japanese were using 30,000 soldiers in attempts to encircle large Chinese forces, but that these efforts had failed, with the Chinese withdrawing westward.

Meanwhile, it was announced today that United States bombers attacked Hankow three days ago. Hankow also was attacked July 2.

A communiqué from United States headquarters also reported that several Japanese planes were destroyed on the ground in a raid July 4 on the White Cloud airfield near Canton.

## Lt. H. Cronyn Weds

LONDON (CP)—Lieut. Hugh W. Cronyn, R.N.V.R., Canadian artist who recently was awarded the George Medal, was married here to Jean Palema Harris, daughter of Mr. and Mrs. Percy M. Harris of London.

A native of Vancouver, Lieut. Cronyn is the son of Mr. and Mrs. V. F. Cronyn of Victoria and a cousin of Lt.-Gen. H. D. G. Crerar, Canadian Corps commander.

The officer, who exhibited regularly in England, Canada and the U.S., is serving as a navigator on a British corvette.

## Final Bulletins

### Biggest Bombs Yet Used in Last Raid

LONDON (CP)—A strong force of R.A.F.-R.C.A.F. bombers, attacking the German naval base of Wilhelmshaven Wednesday night, loosed 4,000-pound bombs—the biggest they ever have announced using—the Air Ministry said tonight.

Returning pilots said that by the time the last of their planes left the target area great fires were raging in the Wilhelmshaven shipyards.

### Espionage Charge

WASHINGTON (AP)—The Justice Department announced today that Herbert Karl Friedrich Bahr, 29, an American citizen, had been seized by Federal Bureau of Investigation agents on charges of violating the espionage laws.

### Anna Dilworth Promoted

LONDON, Ont. (CP)—Appointment of 2nd-Lieut. Anna Elizabeth Dilworth as quartermaster of the new Canadian Women's Army Corps training centre at Vermilion, Alta., was announced today at headquarters of Military District No. 2 here. A native of Victoria, B.C., Lieut. Dilworth joined the C.W.A.C. last December.

### Threaten Death

VICHY (AP)—The death penalty was decreed today for persons who set fire to crops as the Laval government sought to prevent repetition of acts which caused such widespread destruction last summer.

### Axis Claim

LONDON (CP)—The Vichy radio said tonight an American four-motored bomber exploded after a crash landing on Gibraltar. There was no confirmation elsewhere.

### Public Should Obtain Winter's Fuel Supply

From investigations carried out by J. C. Veness of the Coal Administrator's office, it appears the fuel wood situation in the Victoria area has eased considerably during the past two weeks, but the public is advised to take every precaution to obtain supplies of fuel wood and sawdust for winter's needs.

Mr. Veness has been accredited with saying the government would guarantee fuel supplies for this area for the coming winter, but he would like it understood that, while the officials of the Wartime Prices and Trade Board are doing all in their power to alleviate the situation, the government is not in the position to make any guarantee regarding supplies. He hopes the public will make every effort to obtain as quickly as possible, their fuel supplies.

### New Turkish Cabinet

ANKARA (AP)—Foreign Minister Sukru Saracoglu was appointed premier of Turkey today by President Ismet Inonu to succeed Premier Refik Saydam, who died Tuesday night.

### Halt Discussion On Drew Charges

OTTAWA (CP)—Dr. H. A. Bruce, Conservative, Toronto-Parkdale, moved adjournment of the House of Commons this afternoon to discuss a matter of urgent public importance—the prosecution of Lt.-Col. George A. Drew under the Defence of Canada Regulations.

Speaker Glen ruled this matter had already been before the House and he could not accept the motion as dealing with a question of urgent public importance. Dr. Bruce therefore was unable to continue.

T. L. Church, Conservative, Toronto-Broadview, tried to question the government on the advisability of dropping charges against Mr. Drew, who is Ontario Conservative leader, but he was called to order by Speaker Glen and the House resumed routine business.

### Tobacco Strike Ends

MONTREAL (CP)—W. A. Macdonald Inc. tobacco workers returned to their jobs this afternoon after a one-day strike. The employees, totaling 1,800, accepted the tobacco company's offer of wages equal to the scale paid by the tobacco industry generally. No details were disclosed.

### Invade Italy

WASHINGTON (AP)—The U.S. Office of War Information said this afternoon that foreign broadcasts have disclosed Balkan guerrillas, employing hit and run tactics, have invaded Italian territory as far west as Trieste, where a clash with Italian troops was reported.

The guerrilla armies, striking from the forests and mountains, are forcing the Axis to divert troops and material badly needed on the Russian and African fronts.

### Shelters for Seattleites

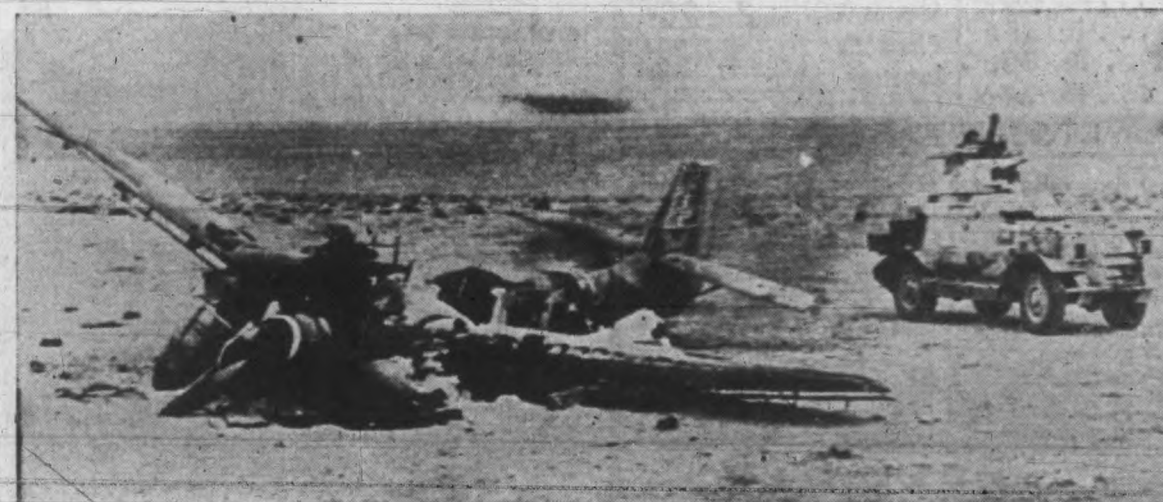

SEATTLE (AP)—Basements, hallways and building floors at 85 downtown spots in Seattle, including most of the large stores, are now approved air raid shelters, W. Allen Grubb, chief of the engineering unit the civilian protection division, said today.

### Ask Pay Boost For Plane Plants

LOS ANGELES (AP)—A.F.L. and C.I.O. representatives submitted joint demands to a government conference today for aircraft industry wage increases ranging as high as 50 per cent.

Union and management are conferring with government advisers on blanket increases covering the entire industry. Such a wage scale would affect more than 1,000,000 workers if applied on a national scale.

Demands of the International Association of Machinists (A.F.L.) and the United Automobile Workers (C.I.O.) included a minimum of 95¢ an hour for unskilled labor, compared with the prevailing 60¢. They range upward through skilled categories to a minimum of \$1.60 for certain employees now paid \$1.52.

GRIM CAT AND MOUSE GAME IN EGYPTIAN DESERT WARFARE—Here's a hide-and-seek game that's deadly serious—a British South African armored scout car cautiously circles the wreckage of a German Stuka dive-bomber downed during the drive of Nazi and Italian forces in Egypt.

## Reds Menace Wedge On Voronezh Front

Mapped here is the swath Nazi have cut into Russia. Today Russian counterblows have eased the drive on Voronezh, vital point on the Moscow-Rostov railway.

By HENRY C. CASSIDY

MOSCOW (AP)—Germany's mightiest offensive of 1942 has failed thus far to gain any broad foothold east of the great Don River barrier, and Red army counterattacks from the flanks have endangered the Nazi wedge west of the river, battlefront dispatches reported today.

With massed tanks and an infantry force padded heavily with Rumanians, Hungarians and Slovaks for numerical superiority, the Germans were reported still forcing crossings in small groups in an effort to regain footholds where their earlier bridgeheads had been smashed.

Some of these, the Russians said, were wiped out, but other of the Axis advance forces were holding on grimly in the face of intense artillery and machine gun fire.

Russian dispatches said that as a result of tank-led Russian counterblows which recaptured several communities on the flanks of the Nazi wedge west of the river, the Germans were forced to divert large forces from their drive toward Voronezh.

The Russian counterattacks apparently centred northwest of Voronezh (perhaps aimed from Orel at Kursk, starting point of the Nazi drive.)

Earlier a Russian withdrawal from Staryi Oskol, 65 miles southwest of Voronezh, had widened the German salient 65 miles southwest of Voronezh.

### Hitler Goes All Out

New Front or Red Supply Make Allies' Choice Tough

By DE WITT MACKENZIE

Associated Press War Analyst  
Hitler is taking advantage of the absence of a second front in Europe to press his assault against the Russian front, says the Communist organ Pravda in Moscow, but the paper squares its shoulders and adds stoutly that "every month we are receiving more material and arms from Britain and the United States."

There we have on thumbnail the elements of the Allied problem in this white-hot crisis on which hangs our fate. A second front would represent military might in action. Undelivered war material represents military might in the potential—in convoys on submarine-infested seas, or struggling over bomb-torn roads to try to reach the battle-front.

Can we hold the enemy until we can turn our potential striking-power into actual force? That's the crux of our problem, and it isn't new.

### MAY FORCE ACTION

It strikes me that if the pressure on the Russians becomes greater than they can withstand—and it already is very serious—must come sooner or later,

A huge force was accumulated for the Nazi command's greatest offensive so far this year, aimed to surge across the Don and cut communications between central and southern Russia.

Dispatches said the situation was serious on the west bank, where some Red army detachments were forced to retreat anew. The Germans occupied a number of points. But in the relatively narrow sector where the invaders had reached the river they appeared so far to have failed to cross in force.

Nazi numerical superiority was conceded. The Russians estimated earlier that about 200,000 Germans were massed for the drive.

Garrisons of two settlements west of Voronezh were declared to have repelled nine attacks in a row, wiping out two companies in the final engagement.

A communiqué said a rifle battalion disabled 13 tanks and killed more than 500 Germans in a sector to the southwest (apparently the Staryi Oskol area) in fighting off four attacks, and then retired to new positions to avoid encirclement.

Five days of combat on the Kalinin front, northwest of Moscow, were reported to have cost the Germans 2,000 killed.

"Our troops fought fierce battles west of Voronezh," the Soviet Information Bureau announced. "After stubborn fighting, our troops evacuated the town of Staryi Oskol."

The Allies may be impelled to take a chance and attempt invasion of the continent to establish a second front. Hitler must be stopped.

Pending the translations of resources into this sort of offensive action, the movement of supplies to hard-pressed Russia is vital.

If the Russians had all the equipment they need they would be wiping their boots on Hitler's flying coat-tails right now. But they haven't got it, and the Nazi chief is capitalizing on this weakness.

### 2-PRONGED ATTEMPT

Hitler is employing a double-barrelled strategy, one barrel aimed at severance of the Soviet's essential sources of supplies and the other at getting fresh supplies for himself. That's a shrewd scheme, for it is calculated to hamstring the Russians even if the invaders don't succeed in breaking through to the Caucasus and the Middle East. This would relieve the pressure on Hitler's eastern front and enable him to get set for the opening of that second Allied front which must come sooner or later.

## Planes to Carry U.S. Wounded

WASHINGTON (AP) — War Secretary Henry Stimson announced today that the air transport command, which since June, 1941, has delivered more than 6,000,000 letters and large quantities of supplies to soldiers overseas, now is forming an organization to bring the sick and wounded back from combat zones.

To be known as the Air Evacuation Group (Medical), the new organization will use transport planes equipped with flying hospitals for surgery, blood transfusions and other treatment. The planes will be able to carry as many as 40 patients.

The identity disc of every service man in Australia is now stamped with his blood group number, to enable rapid transfusion in emergency.

## Tax Wage Holdbacks Allow for Refunds

OTTAWA (CP) — Methods of collecting income tax imposed in the new budget from salaried persons and wage earners were agreed on at conferences between income tax officials and representatives of larger employers, it was officially stated today.

Some of the main points are:

1. Deductions from the pay envelopes of the employees at the source will start with the first payday in September.

2. Deductions over the year until Aug. 31, 1943, will cover the entire portion of the income tax of the employee that is kept by the government and approximately one-third of the portion which is refundable after the war.

3. The employee must file his tax return by Sept. 30.

4. The employer must file a statement of salaries and wages of his employees by October 15.

5. The employer must tell his employee what return he is making concerning that particular employee early in September, so that the employer and employee returns will conform.

### EMPLOYER RETURNS

6. An employer must make a return on each employee whose

salary or wage is three-quarters of such employee's total income. The new tax rates are retroactive to Jan. 1 last. The payments beginning in September continue until the end of August, meaning that the tax on 1942 income is not paid in full until that time.

Fear among taxpayers across Canada, as shown by letters flowing in to C. Fraser Elliott, commissioner of income tax, has been that the full amount of the refundable portion of the income tax would be deducted at the source and the taxpayer would not get a rebate until adjustments were made a year or so later. Meantime the insurance premiums and payments on the mortgages would have to be met.

Such a procedure would have placed many taxpayers in a difficult position to provide the ready money until they got the rebate.

The National Revenue Department has decided on requiring the employers to deduct approximately one-third of the refundable portion of the tax, and the balance will be adjusted between the taxpayers and the income tax office after deduction of the insurance premiums, superannuation and mortgage principal payments.

**THE PLEBE PARADE—WEST POINT'S LARGEST**—In an apparently unending line they march along West Point's storied paths—youngsters from all over the country, anxious for commissions in the United States Army. They are the first arrivals of the largest plebe class in the 140-year history of the U.S. Military Academy, pictured as they marched up from the railroad station.

For example, if the refundable portion of income tax is \$300, the employer will deduct over the year \$100 of this portion, and the employee will look after the remaining portion.

If the taxpayer pays more than \$200 in life insurance premiums, superannuation and principal payments on mortgage he will be entitled to a refund from

the income tax office, but if it is less he will have to pay the difference.

As the refundable feature of the income tax is really compulsory savings, the one-third deduction was arrived at in the belief that the average wage-earner already is saving in his

insurance and mortgage payments two-thirds of what the budget expects him to save.

At the conferences with Mr. Elliott and his staff were representatives of the railway companies, Canadian Manufacturers' Association, Chambers of Commerce and a list of larger employers.

### Hearing Nears End

## Free Speech on Trial, Says Chaloult's Counsel

MONTREAL (CP) — Defence Counsel Fernand Choquette asked for acquittal today in the case of Rene Chaloult, member of the Quebec Legislative Assembly, saying that "the case is bigger than Rene Chaloult, for the privilege of free speech for French Canadians is on trial."

Mr. Chaloult said that Mr. Chaloult, charged under Defence of Canada Regulations, had only tried to fight for the rights of his fellow-countrymen, "like Laurier and Lapointe (the late justice minister) had fought during the first Great War for the rights of the French Canadian minority in Ontario." He did not elaborate on his point.

### CONTRASTS RULES

Mr. Choquette said the trial showed in what measure the right of free speech could be restricted in wartime and if free speech regulations were more strict in Canada than in England, and in Quebec than in other provinces of the Dominion.

A request by the defence that Crown Prosecutor Gerald Fautoux speak first was denied by Judge Edouard Archambault, as the morning session opened. The ruling was given with Mr. Choquette protesting that in summary conviction trials the Crown "is supposed to argue first."

### OPPOSITION RIGHTS

He claimed for his client the right to oppose any measure introduced before Parliament and the right to use any argument before it is passed.

Mr. Choquette said that were article 39 strictly enforced, it "would be impossible to teach the history of Canada in Canadian schools, as recounting the victories of Montcalm would irk the English students, and the description of Wolfe's feats would create animosity among the French students."

### WANT TO WIN WAR

"However paradoxical it may seem," Mr. Choquette said, "French Canadians are just as determined at winning the war as they are irrefutable in their fight against conscription for overseas." He added they were opposed to compulsory military participation.

"French Canadians," he said, "see an attempt at domination in the imposition of conscription by a majority."

Mr. Choquette held that the accused had a right to make a speech opposing conscription at a meeting "organized by an anti-conscription group and attended by two members of Parliament" (Maxime Raymond and Jean Francois Pouliot).

The defence counsel said the court had to consider that a full text of the accused's speech was not available. He quoted a French author as saying: "Give me two words of a person and I'll have him hanged."

Philippe Monette, associate defence counsel, said Canada was no longer a "colony" and that "nothing in the Statute of Westminster prevented a Canadian citizen from claiming his rights."

Police made a check on persons entering the courtroom, asking newsmen and lawyers for identification. The check was apparently made to insure there would be sufficient accommodation for the official group.

News pictures were made during the morning session of the trial. It was believed to be the first time a camera was permitted in the courtroom.

### 2 U.S. Officers Named To Consult Free French

WASHINGTON (AP) — The State Department announced today the designation of Admiral Harold R. Stark and Brig. Gen. Charles L. Bolte as representatives of the United States to consult with the Free French National Committee in London.

The announcement made clear that the move involved no basic change in American policy toward the Free French, by emphasizing the military purpose of the decision.

In a memorandum handed to Gen. Charles de Gaulle in London, the military character of Stark's and Bolte's assignment was stressed and the status of the Free French National Committee headed by Gen. de Gaulle was clarified as "a symbol of French resistance" against Axis aggression.

Admiral Stark is chief of American naval forces in the European waters and Gen. Bolte is the chief of staff to Lt. Gen. Dwight D. Eisenhower, commander of U.S. forces in Europe.

### A.R.P. ACTIVITIES

The Sooke A.R.P. meeting scheduled for July 10 has been postponed until July 17. The postponement is due to the death of Victor F. Eve, who was killed when caught in the capstan of the tug Harriet E. on Tuesday. Mr. Eve was chief dispatch rider for the Sooke A.R.P.

**COXSAIN MATURE** — Hollywood's gift to the U.S. Coastguard, actor Victor Mature, dons a new chapeau he'll be seeing a lot of. He was sworn into the Coastguard as a coxswain.

## CBC Chieftain Gets Allowance Retroactively

OTTAWA (CP) — E. E. Pickering of Regina, former assistant to Gladstone Murray, CBC general manager, said in evidence before the House of Commons radio committee today that expense accounts which had been submitted by Mr. Murray and questioned by the CBC treasurer had been paid by making a restored living allowance and increased travelling allowance retroactive.

Mr. Pickering said Mr. Murray also had claimed expenses for five days' absence from Ottawa in western Canada. He said that because of other engagements Mr. Murray had at that time said he would have had to make two separate flights to the west within a period of a few days to qualify for the five days' absence.

His evidence on expense accounts was given at the request of M. J. Coldwell, C.C.F. House leader. In earlier testimony Mr. Pickering had outlined circumstances of his resignation from the CBC.

### VIEWS DIFFERED

Questioned by Mr. Coldwell, he said he had earlier differences with Mr. Murray but "preferred" not to discuss them.

Mr. Coldwell said he thought the witness should be compelled to make a complete statement.

Mr. Pickering then said that early in 1939, following a division of authority under which financial control of the CBC was given to Dr. Augustin Frigon, assistant general manager, Mr. Murray had asked him to keep in daily touch with the treasurer, Harry Baldwin, to maintain familiarity with financial affairs. Mr. Pickering was to report to Mr. Murray.

Mr. Pickering said that in performing this duty certain matters were drawn to his attention by Mr. Baldwin and were reported to Mr. Murray.

In the year ending March 37, 1939, Mr. Murray put in vouchers for more than \$1,000 for intelligence services. This was declared by the general manager to have been used in obtaining information about plans "hostile to public service broadcasting," Mr. Pickering said.

### ABOVE SALARY ALLOWANCES

No other details were provided and Mr. Murray was reimbursed directly. This payment was over and above his salary, allowances and travelling expenses. There was no authorization from the board or budget allowance for the expenditure and Mr. Baldwin had said that attention had been drawn to it by the local representative of the auditor-general, Mr. Pickering said.

Mr. Pickering said he advised the general manager of the circumstances. "Mr. Murray gave me to understand he recognized the danger of expenditures of this kind," Mr. Pickering said.

A short time later the treasurer informed him Mr. Murray had submitted in the period April to June, 1939, more items of special expenses for service in obtaining statistical and other information on the public reaction to CBC programs. The vouchers were not supported by other details and were submitted directly by the general manager and not through departments concerned.

Mr. Pickering said he suggested to Mr. Murray, who was just leaving for England, that these items might invite attention from the auditor-general and Mr. Murray agreed to allow them to stand during his absence.

### Germans Say Reds In Broken Retreat

BERLIN (From German Broadcasts, AP) — The German high command claimed today that a German breach in the southern sector of the Russian front has "shaken" the Soviet defence west of the Don River for a breadth of more than 300 miles and sent the Red army into disorderly retreat, closely pursued by Nazi mechanized and air formations.

The communique dealt in broad generalizations, implying a great German victory is in the making but giving no supporting details or specific locations and leaving the situation open to speculation by use of the unusual word "shaken" in reference to Russian defences.

(These defences were placed "west of the Don" and again there was no reference to the German claim in Tuesday's communique to the capture of Voronezh, 10 miles east of the Don.) German and German-allied troops are "in full movement" along the whole 300-mile line, the communique said.

## British Occupy French Island

LONDON (CP) — British forces occupied the French island of Mayotte in Mozambique Channel July 2, without resistance or casualties, the War Office announced today.

Mayotte is one of the Comoro islands. Grand Comore, Anjouan and Mohelli are the other principal islands.

Mayotte, with a population of less than 18,000 and an area of 140 square miles, is an island producing principally rum and perfume.

It is the most strategically situated of the Comoros for control of the Mozambique channel, being about 200 miles west of Madagascar, the northern part of which British forces occupied in May, and about 300 miles east of Portuguese East Africa.

(Dispatches from Portuguese East Africa Tuesday reported sinking of three neutral or Allied merchant ships in Mozambique Channel and an attack on a fourth by submarines.)

"Under Vichy rule, the Comoros all have been attached to the Madagascar government."

The argon gas-filled incandescent lamp, the high-power vacuum tube and the atomic hydrogen welding torch are among inventions of Nobel prizewinner Irving Langmuir, who also finds time to be an authority in the chemistry of molecular films.

Each big bomber tire requires as much rubber as 10 of the kind on your car.

## SAFeway Homemakers' Guide

\* Tips worth reading on menu planning \* A list of foods you'll save money by checking \* What one girl learned about so-called "week-end specials"

**Want to know how to save lots of time in your food shopping?**

The main answer to the above question is—"Plan your menu ahead of time". These few tips suggested by the Safeway Homemakers' Bureau, should help a lot.

**Tip No. 1**—Plan menu several days in advance, a whole week if possible, so you'll see your food picture as a whole. Then you can check to make sure you've included plenty of variety and a balance of foods needed for good nutrition.

**Tip No. 2**—For good nutrition, each day's meals should include at least a pint of milk for adults, a quart for children; an egg per person, or at least 3 to 4 eggs a week; some Vitamin B whole grain bread or cereal; a tomato or citrus fruit or their juices; another serving of fruit; at least two servings of vegetables besides potatoes, one preferably green, leafy, or yellow; a serving of meat, fish, chicken, or sea food; some butter and whatever desserts and special treats you like.

**Tip No. 3**—Even the best food tastes better served attractively. Be sure to include in every meal a pleasing contrast of shapes, colors, and textures, as well as contrasting temperatures and flavors.

**Tip No. 4**—Decide ahead of time how to serve any leftover foods (with careful planning you won't have many) in appetizing guise.

## ROOSEVELT ALOOF IN ELECTION MOVES

WASHINGTON (AP)—President Roosevelt, while reserving the right to dabble in politics in his own state, was reported today to have resisted firmly efforts of numerous politicians to get him to take sides in feuds elsewhere in the United States.

One source with access to accurate information said the President has had many bids for political assistance from members of Congress who feel uneasy over their chances for re-election in November. A presidential pat on the back conceivably could make a considerable difference in their fortunes.

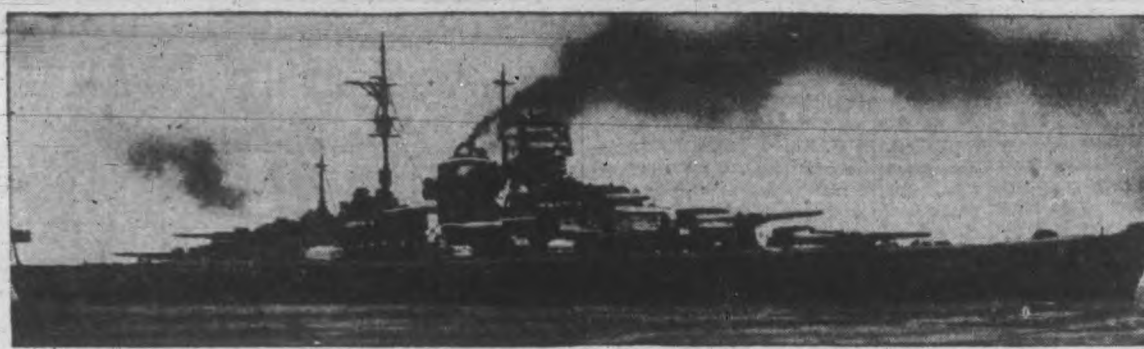

Persons closely associated with the President, who prefer to remain anonymous, say they are convinced there will be no 1942 version of the 1938 "purge," in which the President campaigned against Democrats he considered too conservative.

This year, of course, there could be only one major issue—support of the administration's foreign policy.

The present intention of the President apparently is to take no active part in any campaign to unseat pre-war isolationists again with a possible exception in New York state, where he maintains his permanent voting residence.

The one critic of foreign policy before the United States entered the war who appears most likely to encounter presidential opposition is Representative Hamilton Fish (Rep., New York), who represents Mr. Roosevelt's own congressional district. A veteran of 22 years in Congress, Fish has had to contend before with the political enmity of his most famous constituent.

The polar bear never slips on glassy ice because the soles of its paws are covered with thickly set hair.

**FORCED INTO HIDING AGAIN**—Admiral von Tirpitz, which reports indicate will be useless to the German navy for some time to come.

## Nazis' Biggest Battleship Tirpitz Twice Torpedoed

MOSCOW (AP)—Two well-aimed torpedoes from a Russian submarine, which seriously damaged the battleship Admiral von Tirpitz, Germany's newest and mightiest warship, saved an Allied convoy from attack and let the merchantmen through to Russia intact, Soviet dispatches said today.

These reports said a German naval squadron in which three heavy cruisers and eight destroyers accompanied the Admiral von Tirpitz, put out from shelter in Norwegian fjords several days ago aiming to intercept a large convoy carrying arms to Russia from Britain and the United States.

But the crippling attack on the Nazi battleship, made by a submarine commanded by Capt. N. Lunin, a hero of the Soviet Union, was said to have disrupted operations and permitted all ships in the convoy to reach the safety of a Russian port.

### Ship Seeks Refuge in Hidden Fjord

Only the barest official information has been issued so far, but it is indicated the warship, a potent threat to the Allies' sea lanes, again has sought refuge in an inaccessible fjord along the Norwegian coast.

The warship and the vessels that accompanied her now are believed exposed to British aerial attacks.

The exact extent of the damage inflicted on the Admiral von Tirpitz was not disclosed, but she was said to have been seriously crippled and was expected to require extensive repairs.

The Soviet press today hailed the damaging of the vessel as a great victory for the Red fleet.

She was surrounded by a protecting ring of destroyers when the two torpedoes were slammed into her hull, Russian dispatches said. The submarine which made the

attack is a veteran of actions against German patrol ships and convoys in the Barents Sea. Once she sank a large transport in an enemy convoy and escaped safely despite a two-hour pursuit with depth charges.

The Admiral von Tirpitz is the 35,000-ton twin of the Bismarck, the German battleship which sank Britain's battlecruiser Hood and in turn was cornered and sunk herself by the massed might of British air and sea power.

She was last located at Trondheim in March, in a deep fjord on the Norwegian west coast, after British torpedo planes spotted her, evidently headed for an attack on a Russian-bound convoy, and chased her into hiding.

Tass, Soviet news agency, said the Admiral von Tirpitz and three German heavy cruisers and eight destroyers were attacking a convoy bound for Murmansk when she was picked off by the Red navy submarine.

The general area of the encounter in the Barents Sea placed the action almost at the convoy's destination.

Other dispatches said the German warships left Norwegian fjords several days ago.

### Whole Convoy Safe in Soviet Port

Their operations were disrupted by the torpedoing of the Admiral von Tirpitz, these advices said, and all ships of the convoy were declared to have arrived safely in a Soviet port.

Russian announcements did not disclose the harbor where the Tirpitz sought refuge.

Thus, there is no intimation whether the battleship has been eliminated for any considerable time as a menace to the Allies' bridge of ships or whether she can be restored to battle trim without attempting the long, perilous dash to a home port.

The Russian announcement followed Nazi claims that German sea and air forces had sunk 34 to 38 merchant ships bound in a convoy for Russia as well as a United States cruiser, part of formidable escort including an Allied battleship.

There was no hint in the German communiques, however, that the convoys had been assaulted by a surface raider. These reported sinkings, all unconfirmed by any source, were ascribed to air and U-boat attacks.

Mention in the Russian communiques that a German transport had been sunk in the Barents Sea and that another merchantman had been damaged along with the battleship suggested the Nazis might have been trying to push through a convoy of their own to northern Norway or Finland.

**Germans Claim Ship Not Hit Once**

BERLIN (From German Broadcast)—The German high command's daily communique today said:

"The Soviet assertion that the German battleship Tirpitz had been hit by a torpedo is purely invented. The battleship has neither been hit nor damaged."

## British-U.S. Troops Practice

WITH THE ALLIED FORCES IN NORTHERN IRELAND (AP)—British, United States and a few Canadian liaison troops in Northern Ireland completed today eight gruelling days of battle practice, the first in which the great Allied forces in Ulster have joined.

British soldiers who have been in the field for almost three years and Americans with about 18 months' training in the United States and Ulster "fought" together and against each other in the first such manoeuvres in the European theatre of operations.

An attack by United States armored formations halted the big push of the opposing force.

Maj. Gen. Russel Hartle, commander of United States forces in Northern Ireland, directed all the British troops which opposed the joint British-United States forces headed by Maj. Gen. V. H. B. Majendie, chief of the northern defence zone.

As a climax of the battle practice United States armored formations joined Gen. Hartle's force and wound up the "fight" with a roaring tank attack witnessed by senior British and Polish military leaders.

**Gene Autry Joins Up**  
HOLLYWOOD (AP)—Gene Autry is swapping the expensive cowboy outfit he's worn exclusively for seven years for an air corps uniform.

The singing star of western movies proudly announced he had been accepted as an enlisted man and had been instructed to report to Bolling Field, Washington, D.C., Aug. 1. Since he's 32, he can't fly so he's not certain what his duties will be.

**Milk for Britain**  
TORONTO (CP)—The pledge of the Association of Kinsmen Clubs of Canada to deliver 1,500,000 quarts of milk to children in Great Britain by July 1 was exceeded by more than 2,000,000 quarts, according to the report of the Milk for Britain Fund, to be presented at the annual conference in Vancouver from Aug. 6 to 8.

## Gallup Poll

### 86% in Britain Approve Churchill

LONDON—Although the fall of Tobruk and the critical situation in Egypt may have affected the popularity of Winston Churchill, in mid-June 86% of the British people approved of him as Prime Minister. With the exception of the figure reported by the British Institute of Public Opinion (Gallup Poll) in January (89%) this recent poll shows Mr. Churchill to be more solidly backed by the people than at any other time in the last six months.

The question asked was: "In general, do you approve or disapprove of Mr. Churchill as Prime Minister?"

Here is the trend:

	Approve	Disapprove	Undecided
January	89%	7%	4%
February	82	11	7
April	82	13	5
June	86	9	5

In the light of information from observers in Britain who claim that many people are exhibiting tendencies toward a Socialist form of government, the British Institute's report on the question "Who is the world's greatest living man?" has special significance.

The results:

	Percentage
Churchill	42%
Stalin	24
Roosevelt	20
Hitler	4
Cripps	3

The fact that people in Britain regard Stalin as the second greatest man in the world is not surprising in view of Russia's record on the European battlefield, but it perhaps indicates a certain "swing to the left" on the part of some British voters who have not approved of Russia's form of government or her leaders in the past.

Latest information received from the Australian Institute of Public Opinion shows that in answer to the question: "Are you satisfied or dissatisfied with the way the government is organizing the war effort?" 65% of Australians approved, 20% disapproved and 15% were undecided.

## Conservative Wins British By-election

SALISBURY, Eng. (CP)—Maj. J. G. Morrison, Conservative, was returned to the House of Commons in the Salisbury by-election. He easily defeated two Independent opponents in the polling Wednesday.

Maj. Morrison declared his victory is "evidence of the united feelings of all parties that we should stand solidly behind Prime Minister Churchill in these grave times."

He received 12,076 votes against 3,218 for W. R. Hipwell and 2,519 for J. D. Munro, both Independents. In the 1935 general election the late Maj. James Desborough, Conservative, polled 20,707 to 8,259 for E. J. Plaisted, Labor.

## Sold Mother's Bed To Buy Liquor

NEW YORK (AP)—Magistrate Peter Horn called George Sherry, 46, "the lowest thing I ever saw or heard of." Sherry, who, Brooklyn police said, dismantled and sold his 76-year-old mother's bed to get money for liquor, was sent to the workhouse for three months on his plea of guilty to disorderly conduct charges.

## Liquor Rationed

ST. JOHN'S, Nfld. (CP)—Rationing of alcoholic liquor was introduced Wednesday by the commission government. Individual purchases are limited to three bottles weekly, obtainable by permit book. Previously there had been no restriction on the sale of liquor. Supplies furnished in bulk to service canteens are not affected by the rationing.

## PM Editor Still in I-A Class

NEW YORK (AP)—The classification of Ralph Ingersoll, publisher-editor of the newspaper PM, has been continued in IA by his local draft board.

Ingersoll, whose induction into the army as a private June 24 was delayed to permit reconsideration of his status after Marshall Field, PM's owner, had called him indispensable, appeared before the board at a rehearing of his case. Field or Ingersoll may appeal from the local board's decision within 10 days.

In an open letter in PM a couple of days ago Ingersoll accused the draft board of attempting to draft him because of prejudice against the paper.

Expansion and contraction of the wood makes it impossible to fill permanently cracks between floor boards in old houses, but sawdust and shellac make a good temporary filler.

## REMEMBER Malleks 30th JULY SALE

### 113 BUNDISTS HELD FOR TRIAL

NEW YORK (AP)—Fast-moving Federal Bureau of Investigation agents bent on wiping out the German-American Bund rounded up 64 additional members in the metropolitan area Wednesday night for a total of 113 Bundists arrested throughout the United States in two days.

The new prisoners were seized as dangerous enemy aliens and were removed to Ellis Island to await hearings by alien enemy boards that could result in internment for the duration of the war. Meanwhile some of the original 28 indicted Tuesday on charges ranging from espionage to evasion of the Selective Service and Alien Registration Acts were arranged and held in bail as high as \$50,000. Pleas of not guilty were entered by all but one of those heard Wednesday.

### Hanson Makes Charge

OTTAWA (CP)—Conservative House Leader Hanson said in the House of Commons Wednesday that 25 per cent of taxes paid for war purposes is being diverted to other purposes.

"I wonder what the people of this country who now are being called on to pay more and more and more in the way of direct taxation, will think when they find out that 25 per cent of all taxes they pay for the purposes of the war effort is being diverted to other objects?" Mr. Hanson asked.

"This is the indictment against the budget—25 per cent of the money which the people are to contribute is being frittered away on useless agencies which are costing huge sums of money and are in no way connected directly with the war."

THURSDAY, JULY 9, 1942

## 'Canadianizing' the R.C.A.F.

UNDER A NEW AGREEMENT COVER-  
ing the operation of the Commonwealth  
Air Training Plan from July 1, 1942, to  
March 31, 1945, Canadian pupils of the scheme  
are to maintain, as far as possible, their na-  
tional identity. This means "the construction  
overseas of squadrons and higher forma-  
tions with all-Canadian personnel, com-  
manded by Canadian officers," and a policy  
of "posting Canadian personnel to squadrons  
in which Canadians are already serving."

Canadians are serving in 600 Royal Air  
Force units. The agreement gives Royal  
Canadian Air Force overseas headquarters  
general supervision over R.C.A.F. personnel  
attached to these R.A.F. units and may recall  
any attached officer to service with the  
R.C.A.F. So far as possible R.C.A.F. fighter  
squadrons are to operate from R.C.A.F. sta-  
tions manned by Canadian staffs. Army  
co-operation squadrons allotted to Canadian  
Army formations will be Canadian squad-  
rons. An all-Canadian bomber squadron is  
to be formed under R.C.A.F. command.

The agreement indicates an effort to  
remedy grievances in connection with the  
commissioning of air crews. It says: "The  
general principle is established that all pilots,  
observers, air bombers and navigators con-  
sidered suitable according to the standards  
of their own countries, and who are recom-  
mended for commissions, will in fact be  
commissioned. The existing percentages gov-  
erning the number of commissions given to  
wireless operator air gunners and air gun-  
ners will be maintained, but some flexibility  
will be permitted to ensure that airmen in  
these categories with the necessary qualifica-  
tions are not excluded from commissions on  
account of the quota."

The status of the R.C.A.F. and its per-  
sonnel overseas was debated in the House  
of Commons at Ottawa two months ago.  
There was criticism of the system whereby  
some members of an air crew were com-  
missioned and the others not, although all  
shared responsibility and danger. Also, the  
opinion was voiced that Canadian units for  
Canadian fliers and under Canadian control  
should be built up overseas. Air Minister  
Power supported the positions taken by the  
critics and promised reforms in the R.C.A.F.  
organization along the lines of "Canadian-  
izing" it. Thus the new Commonwealth Plan  
agreement gives evidence of Mr. Power's  
determination to implement his promises  
and thereby make the service still more  
attractive to young Canadians.

## Recognition Coming?

FROM WASHINGTON TODAY COMES  
the announcement that Admiral Harold  
R. Stark and Brigadier-General Charles L.  
Bolte will be the United States representa-  
tives to consult with General Charles de  
Gaulle's Free French National Committee in  
London. While it is suggested that these  
"consultations" will be purely military in  
character, it may well be that both the British  
and American governments are considering  
the political aspects of the movement, es-  
pecially in view of the categorical declara-  
tion of Free French policy as set forth in  
the recent manifesto.

Free French Week opened yesterday,  
with a speech in New York by Mr. Wendell  
Willkie, and a reply in London from General  
de Gaulle. Next Tuesday is Bastille Day;  
it fell on July 14, 1789—one of the signals  
for the French revolution. Recognition of  
the National Committee by Great Britain and  
the United States on that day would surely  
inspire those millions of enslaved people in  
France who are longing and working silently  
and secretly for their liberation—waiting,  
too, for their chance to assist the new in-  
vaders.

## An Atlantic Offensive

FOR MANY MONTHS PAST DR. MAX  
Werner, internationally famous author-  
ity on military matters in general and strat-  
egy in particular, has argued in support of  
an Anglo-American naval offensive in the  
Mediterranean. His idea as far as the un-  
initiated could make out was to cramp the  
Axis style in Libya and remove some of the  
dangers lurking in territory still under the  
official control of unpredictable Vichy—  
with the elimination of the Italian fleet for  
good measure. Just how all this could have  
been done is another matter; but he has  
come back to his original plea and postu-  
lates the contention that "the offensive in  
the Atlantic must bring the revenge for  
Libya." Dr. Werner puts it this way:

"The Atlantic front is not merely a front  
for the defence of supplies to Britain. It is  
also a base for operations and the rallying  
ground for an offensive Anglo-American  
strategy. The Anglo-American-Canadian  
land and air forces in the British Isles are  
stronger than the land and air forces of the  
Third Reich in western and northern Europe.  
The Atlantic coasts of Hitler-controlled Eu-  
rope are, with the exception of the submarine  
bases, no longer a line of encirclement and  
jumping-off place against the British Isles,  
but the Third Reich's line of defence. For-  
merly the Channel was Great Britain's last  
line of defence. Today the Channel is the  
last line of defence of Hitler Germany. The  
central task of United Nations strategy to-  
day is to overcome the Channel—broadly

speaking, to conquer the waterlane that sepa-  
rates Hitler Germany from the Anglo-  
American jumping-off position in the British  
Isles."

In other words, the Werner view is that  
the dilemma for the second front is incor-  
rectly stated as improvisation or organiza-  
tion; although, of course, it is accepted that  
any such adventure must be thoroughly pre-  
pared and efficiently organized. This is an-  
other way of saying that if there is to be  
new relief for Russia—as promised, by Mr.  
Churchill and Mr. Roosevelt—strategic pri-  
ority must be given to everything which will  
challenge Hitler's "last line of defence" on  
the Atlantic. It would seem, too, that Dr.  
Werner relates the present Nazi drive to the  
southeast, its cost to the Wehrmacht in par-  
ticular, to the prospect that Hitler's defence  
of the Atlantic front will be at its weakest  
for the next few weeks. That is the impli-  
cation to be deduced from the following  
assessment of the difficulties of the cam-  
paign now developing:

"One need only remember what the army  
group of Von Bock has to overcome if the  
Near East is its marching route; the strongly  
fortified positions around Rostov and the  
lower Don; the broad areas on the way from  
Kharkov to the middle Don; the approaches  
to the northern Caucasus; and only then the  
Caucasian mountain range; the steep south-  
ern plateau of the southern Caucasus. Taken  
together and including the Red Army's power  
of resistance, these are virtually insurmount-  
able obstacles. It would be Caesarian mad-  
ness even on the part of Hitler to attempt  
to reach Bagdad from Kharkov. And the  
plan to march from Kerch to Baku is not  
any more realistic."

Russians themselves are describing the  
present position on the southern front as  
"difficult." And the Wehrmacht is main-  
taining a steady pace. But Sevastopol has  
proved to Hitler and the world the almost  
incredible power of resistance on the part  
of the Red Army. What Stalin's men have  
done before they may be able to do again.

## 'Brave' Von Papen

IN A HIGHLY-INFORMATIVE ARTICLE  
in the current quarterly issue of Foreign  
Affairs (New York) Mr. C. L. Sulzberger  
relates an interesting story about Franz von  
Papen, Nazi ambassador to Ankara, which  
a few Turks repeat among themselves from  
time to time. During the retreat before  
General Allenby in the last war, Ismet Pasha  
—now President Inonu of the Turkish Re-  
public—was riding along the Ottoman lines  
accompanied by staff officers, including von  
Papen. A few British batteries began shell-  
ing the vicinity. The story has it that von  
Papen immediately dropped from his horse  
and took cover. The Turks rode on. Later,  
when von Papen rejoined them at a canter,  
he apologized, explaining the British "were  
after him." This incident remains impressed  
on Ismet's mind; the President is not yet  
sure, asserts Mr. Sulzberger, whether von  
Papen is exceptionally nervous physically  
or suffers from a persecution complex.

It will be recalled that von Papen was  
sent to Ankara because of his familiarity  
with Middle East affairs, and also, as his  
record in the United States before our neigh-  
bor entered the first Great War convincingly  
revealed, because he is a past-master in the  
art of intrigue. After his recall from Wash-  
ington he was posted to his old regiment on  
the western front, and while serving there  
he developed ideas of bringing about Jihad  
—or Moslem Holy War. Eventually he was  
attached to the Fourth Turkish Army in  
Palestine where he had to face General  
Allenby's attack. Strangely enough, he was  
nearly captured near Jerusalem; but Joachim  
von Ribbentrop, a lieutenant in the same  
regiment, saved him—a case of "birds" of a  
feather. With the death of Premier Refik  
Saydam yesterday, incidentally Foreign Min-  
ister Sukru Saracoglu was today appointed  
the new Turkish Prime Minister; and it is  
no secret that von Papen has for months  
past used all his arts and wiles on this able  
member of the government at Ankara. Per-  
haps Mr. Saracoglu has heard the story of  
the Nazi envoy's "bravery" which Mr. Sulz-  
berger recounts.

## Hope He Is Right

PREDICTIONS AS TO THE LENGTH OF  
the war should be taken with a large  
grain of salt—whether they suggest a long-  
drawn-out conflict or victory sooner than  
most of us dare to imagine. We put it that  
way because Chairman Andrew May of the  
United States House of Representatives Mil-  
itary Affairs Committee said today there will  
be no need for his country to induct married  
men or youths in the 18 and 19-year group,  
since the war will end "probably in 1942  
and unquestionably in 1943."

Chairman May openly and confidently  
declares that he bases his rosy outlook on  
information he has in his possession con-  
cerning "a military secret" obtained since  
the recent Russian reverses had cast a some-  
what dark shadow over the peoples of the  
United Nations. Not for us, of course, to  
doubt the personal opinion of one able to  
acquire knowledge of the war's progress that  
is necessarily denied to ordinary folk. We  
hope he is on sound ground. But it would  
be better to regard his contention as just  
another prediction to put with the many  
that have gone before.

## Notes

It is surprising how much gas rationing  
can do to prevent distance from lending en-  
chantment.

Women suffer more and with greater for-  
titude, says a male biologist who never broke  
in a Father's Day pipe.

Along about 1992, in the long period of  
peace which is expected to follow this war,  
the 50-years-ago column may be the hot spot  
in the paper.

## Bruce Hutchison

### SAD STORY

THE LONDON SPECTATOR, AS QUOTED  
on this page, delivers a rather brutal  
attack on the custom of public luncheons.  
They waste time and food, it says, in war-  
time. To the more sensitive observer, the  
public luncheon is not a subject for anger  
but for a deep pity and human compassion.  
The public luncheon, as I have observed it  
over a long and unhappy experience, is not,  
as generally supposed, an attempt by a  
group of men to impress themselves upon  
the public, to exhibit themselves and make  
speeches; it is, on the contrary, an attempt  
to escape from the intolerable loneliness of  
their own lives.

All week the businessman labors over  
his desk, counts his money, adds up his  
figures, sells his goods and pleads with his  
employees to work, and thus he becomes  
what is known as a success, and he returns  
to the bosom of his family at night with the  
comfortable thought that he has achieved  
his full part in the world's work.

This may be true, but the satisfaction is  
an empty one. By the middle of the week  
the solitary grandeur of his office, the spec-  
tacle of his safe and strong box bursting  
with profits (before income tax) fails some-  
how to satisfy him and he rushes from this  
scene of his triumphs. He rushes to a public  
luncheon to find others of his kind who  
also have rushed away from their triumphs  
and now seek some little warming ray of  
human companionship. And having enjoyed  
it among his equals, having felt the cheerful  
glow of communication with his fellows,  
even though that communication takes only  
the form of a few songs and a dull speech  
by some visiting fireman on the turpentine  
industry of Georgia or the making of cash  
registers in Dayton, Ohio, the businessman  
feels all cheered up and can face once more  
the intolerable burden, loneliness and un-  
appreciated labor of his life.

### SYMPTOM

Thus the public luncheon is seen to be  
a powerful symptom of the condition of our  
modern civilization. It is one of the best  
proofs that the huge conglomeration of  
people in our cities, the monstrous herding  
and writhings of crowds, the vast equipment  
and paraphernalia of urban life, the com-  
pounded luxuries and delights of the machine  
age do not provide happiness, that in the in-  
creasing presence of people we only become  
the more lonely until the master of our age,  
the businessman, returns like a little child  
to the simplest of human amusements. Public  
luncheons, therefore, always make me very  
sad; especially as the food at a dollar a  
plate is never as good as bacon and eggs  
at home.

### ARGUMENT

One sees by this newspaper that a fierce  
controversy is proceeding in the letters-to-  
the-editor concerning Socialism. The discus-  
sion and the interest in it are a trifle marred  
by the condition of the world, for it is diffi-  
cult to grow excited about the theories of  
Socialists and anti-Socialists in Victoria, B.C.,  
when our whole civilization is being smashed  
up all over the world, and the right to choose  
between Socialism and any other system may  
be lost before the letter writers can conclude  
their argument.

In better times, at this season of the  
year, which were called the dog days before  
we became so civilized, such an argument  
was good for two months of lively exchange  
in the letter columns. We shall know that  
the world has returned to normal when the  
papers are full of such letters instead of  
battle reports; and especially when the let-  
ters report the arrival of spring birds, the  
first spring lily, the largest and oddest-  
shaped squash of the autumn and the return  
of the sea serpent who has mysteriously dis-  
appeared for the duration (unless the mili-  
tary authorities have censored news of him,  
lest the Japanese gain some valuable infor-  
mation about the condition of our coast).

However, it is interesting even at a time  
like this to consider the delicate intricacies  
of the current argument about Socialism.  
One gentleman apparently assumes that  
Russia has Socialism. Another replies that  
it is not Socialism but State Capitalism be-  
cause in Russia all classes have not been  
abolished and rewards are not equal; where-  
as in the Socialist state everyone has the  
same rewards precisely, whether he is the  
most brilliant graduate of a medical college  
or the fellow who looks after the experi-  
mental corpses.

Now the fact that no such Socialist state  
has ever existed does not terrify the true  
Socialist. The fact that the only large at-  
tempt to establish it, in Russia, had to be  
abandoned immediately, means nothing.  
Somewhere, sometime (and preferably in  
Victoria) there will be a state of perfect  
equality, with all rewards the same. Mr.  
Hart paid the same wage as the janitor (and  
probably preferring them to do the janitor's  
easier work). That will be Socialism and the  
true Socialist will not accept any counterfeit  
State Capitalism. He will not, that is to say,  
in letters to the editor.

### MORAL AND POLITICAL LAG

In the field of science, the human mind  
has made immense strides. This is the  
outstanding human accomplishment. In the  
moral or religious field progress is not so  
plain. Indeed, in this field humanity seems  
to be marking time. In the political field  
there is even less progress or the promise of  
progress. Science is the field of the select  
few. Politics is the province of the majority.  
Politics will be what it is while the Pitdown  
Man still has the most votes. Politics can-  
not rise above its source.

What you put into your work seems to  
have a lot to do with what you get out of it.

## SIDE GLANCES

"It took gas rationing and the tire shortage to bring it back, but the town must have looked about like this when our parents were young—and wouldn't they love it?"

## More Like Sea Fighting

Among the 20 ambulance drivers of the American Field Service who escaped from Tobruk just before its fall, may have been Christopher Morley Jr., eldest son of the author and critic. He had been on the desert front during some of the hottest fighting, but not as long as some of the members of the vanguard of this service, who were going out to Africa as long ago as January, 1941. Some of the ambulance drivers who went out to serve with the British and the De Gaulle lists, had seen the fall of France.

Captain Peter Muir, formerly of Charlottesville, a section leader of the A.F.S., was among the group who went to Africa from the United States last January, flying down to Rio de Janeiro, and then going by ship to a port on the African coast.

In Tobruk, Capt. Muir found a British officer who compared desert fighting to combat on the sea. "It is more like sea than land fighting," this officer told Muir, who quoted him in an article which appeared in Harper's Magazine, "and I have Wavell to thank for this theory. . . . The loss of 1,000 square miles of sand is no more important to us than the loss of 1,000 square miles

of the Atlantic, if we are able to choose the spot where the fight shall take place and inflict heavier losses on the enemy than he inflicts on us."

The officer explained that this was the reason why the British had given up so much of the conquered territory of Africa without a struggle. "Give it to Jerry," the officer said. "He's bought the desert. Now let's see what he can do with it. My opinion is that the desert will beat him."

Despite the loss of Tobruk, what the British officer told Muir, whose men have now sped away from that fallen city, still may be apposite. After all, the Germans have acquired a lot of sand, and it isn't easy to supply an army in the desert.

### WAR—25 YEARS AGO TODAY

By the Canadian Press

JULY 9, 1917—British battle-  
ship Vanguard destroyed by in-  
ternal explosion; 700 killed.  
Turkish forces reoccupied Pan-  
jwin, Khanikin and Ksar-i-shirin  
on the Persian border. British  
naval airmen attacked the  
Turkish fleet off Constantinople.

By Galbraith

## CONSCRIPTING WEALTH—WHAT IS IT?

From Financial Post

Trying to keep one jump ahead  
of the palpable demography of the  
C.C.F. program, Hon. Ian Mac-  
kenzie has come out for the con-  
scription of wealth.

Various C.C.F. speakers have  
at least tried on occasion to in-  
dicate what they mean by conscrip-  
tion of wealth. Their formulae  
differ but they usually embrace  
at least three things:

"Progressive" income taxes, as  
though we did not have progres-  
sive income taxes now.  
A limit on "war profits" al-  
though the records of Canadian  
corporation earnings show that  
profits arising out of this war  
simply do not exist.

"Conscription" of industry for  
war work, as though the govern-  
ment is not today using its full  
and uninhibited powers to use  
available factories, tools, manage-  
ment and workers for war pro-  
duction.

Mr. Mackenzie was less definite.  
He contented himself with a  
vague and meaningless phrase.  
"Mischievous equivocation" the  
Vancouver Province calls his re-  
marks. "Bunk" is the more suc-  
cinct designation of the Evening  
Telegram, Toronto. And the Ot-  
tawa Journal puts the facts  
clearly when it adds:

"Most of this talk about 'con-  
scription of wealth' is loose, mud-  
dled talk. The government is al-  
ready conscripting wealth. Con-  
scripting it with a vengeance."

That is a fair commentary.

### THE TOO SILENT SERVICE

From Hansard Report

House of Commons  
Mr. L. A. MURCH (Winnipeg  
South): Canada's navy is known  
everywhere but in Canada. I  
should like to suggest to the Min-  
ister of National Defence for Na-  
val Services (Mr. Macdonald) that  
he discard this tradition of the  
navy being a silent service, that  
he leave that to those who  
coined the expression. This is a  
new navy in a new world. It may  
be well to keep the traditions  
which have made the British navy  
what it is, but we should discard  
some of the snobbish ideas, one  
of which is that the navy should  
be the silent service. We should  
be told what is being done. No  
matter what happens in England  
or on the continent, in North  
America when you have some-  
thing to sell, your best idea is to  
advertise. This is one thing the  
administration has failed to real-  
ize, both in time of peace and in  
time of war.

We must establish a more just  
and equitable order after this  
war. We must be sure this time  
that the gallant dead shall not  
have died in vain.—Canon A. C.  
Don of St. Margaret's Church,  
London.

## THE BRIGHTER BREAKFAST MOVEMENT!

\*Crispness Investigation Department

News from breakfast front! Finicky appetites must be conquered. C.I.D.\* correspondents report golden, crunchy bubbles of Rice Krispies, singing happiness songs. SNAP! CRACKLE! POP! now occupy breakfast tables across Canada! Whole families starting day with smile on lips... song in hearts. Situation well in hand! Better get a package today!

THE MARITIMES  
I SAILED ALONG  
TO HEAR FOLKS SING  
THE CRISPNESS SONG

DOWN TO ALBERTA  
I HOPPED... TO SEE  
HOW THEY LIKED  
RICE THAT POPPED!

St. John housewife reports singing cereal completely wins over family of picky eaters. "They simply devour Rice Krispies," she says! "I know the family always insists on the individual package with the inner, WAXTITE, sealed bag when they eat out," says Pop.

SO CRISP THEY  
C-R-A-C-K-L-E  
IN CREAM!

NOW WE MUST ALL BUY MORE WAR SAVINGS CERTIFICATES

Spraying with a naphthalene 10 days to two weeks, so that acetic acid solution is said to be harvested all at once. Pheasants are not native to America; they were imported from Asia.

## Emily Carr Donates Canvas to Air Fund

Emily Carr, distinguished Victoria artist of Indian life and background, has made a tangible contribution to the B.C. Indian Spitfire Fund in donating for sale one of her early works, "A Street in Masset Q.C.I."

Acclaimed as one of the leading contemporary painters of this continent, Emily Carr brings further honors to her native province as winner of the Governor-General's Literary Award for 1941 in the field of general literature.

Her recent book, "Kleeewyck," a series of intimate sketches and personalities among the coast Indians with whom she has lived and worked, has won for her this distinguished honor.

"A Street in Masset," painted in 1912, no longer exists, and has therefore a documentary and historical value.

It is being purchased by public subscription and will become the property to be presented to the Edward and Mary Lipsett Museum of Indian Art and Relics in Hastings Park, where it will be hung permanently.

For the time being it will be on view at the Vancouver City Museum, Hastings and Main, where donations to the fund are being made or to Mrs. Mary Sieburth, 4144 Puget Drive, Vancouver.

## Cadboro Sea Scouts Make Presentations

The final meeting for the summer of First Cadboro Bay Sea Scouts featured a wiener roast and gallons of cocoa.

The chairman of the group committee, F. E. Taylor, after a few appropriate remarks, called on Scoutmaster Bardsley to present carnation corsages to Mrs. F. G. Aldous, president of the Women's Canadian Club, and to Mrs. E. J. Lewis Smith. Mrs. Bardsley, widow of the late "Skipper" Bardsley, was presented with a beautiful bouquet as evidence of the Scouts' affection for her husband, by three selected Cubs and Scouts.

Vice-chairman, W. S. Kirkpatrick, presented the troop and pack with a bronze plaque made by the employees of the Red Cross Workshop, bearing the name of the hall, "Skipper Bardsley Hall." His remarks reflected the loss felt by all in the passing of the Skipper.

Mrs. Aldous, mother of the late Peter Aldous, who was one of the troop's real Scouts and who was lost in a flying patrol over the North Sea, presented the boys with a beautiful racing yacht which belonged to Peter, as another tribute to this group.

Scout Commissioner Freeman King, on behalf of the group, presented a thanks badge to E. J. Lewis Smith as a tangible recognition of the appreciation the boys have for "Smithy," who has spent so much time working on the construction of the Scout Hall.

The balance of the evening was spent singing and partaking of refreshments and celebrating the 21st birthday of the secretary, H. Stevens.

## Gasoline Sales Down

Gasoline sales to private automobiles dropped 675,671 gallons in May, compared with the same month of 1941, according to today's monthly report of Dr. W. A. Carrothers, chairman of the Coal and Petroleum Control Board.

May sales, however, increased 226,524 gallons over April, when gasoline rationing started.

Total sales of gas dropped from 5,845,639 gallons in May of 1941 to 4,694,574 in the same month of 1942. This makes a total drop of 1,151,065 gallons, including commercial and marine accounts, as well as those of individual motorists.

## B.C. M.L.A.'s Intercede For Arrested Man

PORT ALBERNI (CP)—Alan Parker of Ashcroft, B.C., former officer of the Canadian army under remand for hearing of two charges against him under the Defence of Canada Regulations, was released from custody Wednesday when Harold Winch, provincial C.C.F. leader, and E. E. Winch, C.C.F. member of the Legislature for Burnaby, interceded on his behalf.

Parker was released pending the posting of bail of \$2,000, together with the personal sureties of the two members of the Legislature. His case is scheduled to come before Magistrate H. C. Wright in Alberni police court Saturday.

Parker was arrested on a warrant from the provincial police here last week, charging he was carrying on his person photographs of vital defence areas, contrary to the Defence of Canada Regulations.

## I.O.D.E. Garden Fete At 'Molton Combe' Raised \$285

With the Royal Canadian Navy Band its bandman vocalist to provide entertainment, and an ideal setting in which to spend a summer afternoon, the garden party held at the home of Mrs. Curtis Sampson, "Molton Combe," Newport Avenue, drew a large crowd, including many out-of-town visitors, Wednesday afternoon. Sponsored by the Navy League Chapter I.O.D.E., the affair was a financial as well as a social success, and as a result the sum of \$285 will be added to the chapter's coffers.

Introduced by Mrs. J. L. Ford, the regent of the chapter, Mrs. F. L. Stevenson, wife of Air Vice-Marshal Stevenson, R.C.A.F., formally opened the party, paying tribute to the chapter's war work. She was presented by Mrs. Ford with a lovely corsage bouquet of gardenias, and to Mrs. Sampson, in appreciation of her kindness in lending the garden, Mrs. Ford presented a bouquet of roses and pale blue scabious. Tea was served on the inner lawn, in the shade of the fine old trees. Mrs. Renfrew had charge of the tea arrangements, members having donated the tea some time ago before the rationing was instituted. Bridge was played in the house.

The gaily-decorated stalls were arranged around the main lawn. The grocery box was in charge of Mrs. A. W. Bradley; the woolies stall, Mrs. D. W. Carter; the white elephant stall, Mrs. T. McGimpsey; Mrs. T. A. Johnston, Mrs. M. A. Kent, and Miss Kathleen Johnston. Ice cream was sold by Mrs. Webster and Mrs. Biggin, and the contests were in charge of Mrs. C. W. Plumb, Mrs. W. Brynjolsson, Mrs. T. Watt and Mrs. J. Birchall. Mrs. A. J. Cowan assisted those wishing to have a peep into the future, and Mrs. A. D. Whittier sold Navy League Chapter cook books. The beautiful petit-point fender stool, the work of Mrs. James Baker, was on display, and was disposed of during the afternoon. Bingo also proved a popular attraction, adding much to the afternoon's receipts.

**LANDFORD**  
The annual garden party under the auspices of St. Matthew's Guild, Langford, held at the home of Mrs. L. Powers, Langford Lodge, Wednesday afternoon, proved a success. Mrs. M. A. Foulds of the B.C. Electric home services and her assistant, Miss M. Marter, had a difficult task judging the best entries in the war cake contest, managed by Mrs. H. W. McKenzie. Prize-winners were Mrs. A. F. Bayles and Mrs. L. Carlson. Tea was served on the veranda by Mesdames A. B. Bown, H. Goodman, M. Stewart and the Misses E. N. Hinkins and Josephina Seabrook. Mesdames W. A. S. Walker and C. Willard sold needlework; Mrs. P. N. Welch, miscellaneous table; ice cream, Mrs. E. Jeffery; tea tickets, Miss V. Taylor; housewife, Mrs. A. F. Bayles; darts, Mrs. V. Franklin. Rev. P. J. Disney thanked Mrs. Foulds and Mrs. Powers for their kindness, both ladies receiving corsage bouquets from the president, Mrs. H. A. Hinkins.

**WHITE HOUSE WEDDING**—Those smiles and the ring that Mrs. Louise Macy is fingering tell this story. Harry Hopkins, President Roosevelt's right hand man, is pictured with the former New York fashion editor who'll become his bride on July 30. The wedding will be at the White House, first one to be held there since President Wilson's administration during last war.

## Women Rapidly Replacing Men In Wartime Industries

By MARGARET ECKER  
Canadian Press Staff Writer  
OTTAWA (CP)—The onus of replacing men in war industry rests with young unmarried women or married women with no children, says Mrs. Rex Eaton, of Winnipeg.

As newly-appointed assistant director of the National Selective Service Directorate, women's division, Mrs. Eaton declares younger women who can stand the gaff should enlist in industry with the same spirit of self-sacrifice as young men who have enlisted for fighting service.

If Mrs. Eaton has her way, married women will be left in the home to carry on Canada's family life as long as possible. But if women generally must meet the needs of war industry, they will do it eagerly and enthusiastically, Mrs. Eaton said in an interview. Hundreds of letters have already poured into her office, from women in all parts of Canada demanding to know what jobs they can do.

### EAGER TO HELP

"The women seem to be willing to do anything, to go anywhere. As a rule women are stay-at-homes, they're not mobile, as we say in labor, but today all that's changed. The urgency of war has made women eager to be of service, no matter what the sacrifice entails."

Whether Canada's women will need to be mobilized, she did not know. But there will be no national registration until the register of unemployed men has been tabulated. Not before then will it be known how many women, if any, must be mobilized. If the time comes when women have to be moved about the country, Mrs. Eaton is going to see they are well looked after.

"If women are brought into industry in large numbers I will accept responsibility, as part of my work, to see that they work under healthful, happy conditions, that they live comfortably."

Some definite provision probably will be made if a large-scale transfer of women to war industry takes place. Hostels might be established for workers where their health and recreation would be given adequate care. Since the nutrition services of the Department of Pensions and Health is studying the proper feeding of war workers, these surveys may be extended to women workers and their particular problems.

### DAY NURSERIES PROVIDED

If, eventually, women with children are needed in industry, day nurseries will probably be provided through government agencies, assisted by Canada's social welfare system. Already thousands of women, many of them with children, have been absorbed into war industries.

"Women's contribution in industry, so far, has been marvelous," commented Mrs. Eaton. "There hasn't been enough expression of appreciation of these women for the role they are playing."

Evidence of this was in the report on the employment of women in Canadian gun and rifle factories made in January for the Women's Bureau of the United States Department of Labor. This showed that in January, 1942, two-thirds of all factory employees in rifle manufacture, two-

## Red Cross Notes

**MANY MESSAGES**  
Through the International Red Cross every week hundreds of messages are sent to all parts of British Columbia from relatives in enemy occupied countries in Europe. In May there were 248, and in June 218.

The report of the Victoria City and District honorary treasurer for June follows: Receipts, general contributions, \$264.96; Units, \$1,462.16; affiliated groups, \$4.20; Superfluties Store, \$1,000; penny cards, \$39.76; other fund raising events, \$28.95; blanket fund, \$4; Chinese Red Cross, \$151.07; prisoners of war, \$73.25; Russian relief, \$195; Junior Red Cross materials fund, \$120.15; national campaign, \$100,008.02; total receipts, \$103,351.52.

Expenditures: Office expenses, \$278.19; workroom expenses, \$216.93; Red Cross Corps, \$46.47; relief work, \$1.26; total administration, \$542.85. Remitted to B.C. Division, May receipts, \$3,727.24.

### Food Supply Sent to Bend, B.C.

PRINCE GEORGE, B.C. (CP)—Food and bedding are being shipped from McBride to Bend, B.C., to aid the 200 persons who lost everything in the fire Monday night that wiped out the small mill town and destroyed the mill 80 miles east of Prince George. The fire occurred when wind spread the blaze from the mill burner.

R. R. McGillivray, manager of Bend Sawmills Ltd., is said to be arranging temporary housing. It is expected the mill will be rebuilt immediately.

The McBride Red Cross unit sent assistance to Bend at once, and Prince George branch is standing by.

Motorists and other users consumed 11 per cent more gasoline in 1941 than in 1940.

## Ottawa Mansion Will Be 'Wrens' Headquarters

By MARGARET ECKER  
Canadian Press Staff Writer  
OTTAWA (CP)—There's nothing nautical about a big-towered 20-room Elizabethan house on Laurier Avenue in Ottawa, but early in August, according to plan, the building—one-time Ambrose O'Brien mansion—will become No. 1 R.C.N.S. training centre for Wrens.

The school will be in surroundings to which most Canadian girls would like to have been accustomed. There are spacious grounds where the girls can stroll or rest in off-duty hours. There are terrace-like verandas framed by green hop vines.

Women naval officers will probably use the big double parlor with its ceiling-high windows. Navy rations should taste like filet mignon in the oak-paneled dining room, with its huge fireplace.

There's kitchen space to feed a ship's company behind the dining-room and a whole suite of washing-rooms, cupboards, serving-rooms, butlers' pantries and servants' quarters.

### EXOTIC BATHROOMS

Upstairs is a maze of rooms, bathrooms and cupboards. It will take some planning to make these shipshape, but bath night will be a glamorous occasion. Of the seven bathrooms on the two top floors, only one or two are mundane white porcelain. The rest are exotic creations in lavender, green, yellow and a deep blue not far from wren blue.

Original plans called for the Wrens to be in training by the end of July, but it is expected that several weeks will elapse before the first class of 50 or so will be taken in. This first group will be given a few weeks rigorous preliminary training and from its ranks will come the future officers of the Wrens in Canada.

### C.W.A.C. HEADQUARTERS

OTTAWA (CP)—Ottawa Ladies' College, for nearly 65 years a school for young women, is to become headquarters for the Canadian Women's Army Corps, it was learned tonight. An order-in-council has been passed under which the college is taken over by the government for military purposes.

By MARGARET ECKER  
OTTAWA (CP)—Canadian Wrens won't be glamour girls, but they'll be an attractive, smart-looking group of women, naval authorities here predict.

The first uniforms that the Women's Royal Canadian Naval Service will wear have come back from the tailor and have been approved by Navy Minister Macdonald and Vice-Admiral Percy W. Nelles, and were previewed today by a Canadian Press reporter.

On the whole, they have been inspired by the uniforms worn by the British Wrens, but they have been redesigned to flatter and more democracy. The winter and summer uniforms of both officers and ratings have been nipped in some places and built out in other places to make figure defects less obvious.

They haven't been designed to be worn by lanky glamour girls, say the naval authorities, who have collaborated to whip up these women's naval trappings. They have been designed to look well on the average figure, which is often none too good, and to make the chubby little Wren not too grotesque in her uniform.

The accent is on democracy, too. In Britain there are wide differences in material and in de-

## Weddings

**COCHRANE—RUTHERFORD**

At the home of the officiating minister, Rev. James Hood, Esq., on Monday afternoon at 5, Miss Gwendolyn Rutherford, eldest daughter of Mrs. J. Rutherford of Cumberland, and the late Jasper Rutherford, became the bride of Mr. Thomas Cochrane, youngest son of Mr. and Mrs. T. Cochrane of Cumberland.

The bride wore a marine blue ensemble with pleated skirt and long jacket trimmed with white collar and cuffs, a pink straw hat with veil, and a corsage bouquet of pink carnations. Miss Dorcen Henderson was her only attendant, wearing a navy blue outfit, with white accessories, and a corsage of pink carnations and sweet peas. Mr. Stanley Lawrence of Cumberland was best man.

After a honeymoon in Vancouver and Nanaimo, the young couple will make their home at Cumberland until July 15, when the groom leaves to join the Air Force.

### \$95,645 for Lowell Thomas

PHILADELPHIA (AP)—Lowell Thomas, the radio commentator, received \$95,645 in 1941 for his nightly 15-minute news broadcast sponsored by an oil company, the firm's annual report filed with the securities and exchange commission discloses.

### Williams-Bulkeley Dies

BEAUMARIS, Wales (CP)—Sir Richard Williams-Bulkeley, 79, Welsh landowner and lieutenant of Anglesea for 46 years, died Wednesday.

He was the owner of the land embracing Snowdon, highest mountain in England and Wales. He served with the navy in the first Great War and was the first officer of the naval reserve to reach the rank of commodore.

### New Gnu at Zoo

NEW YORK (AP)—The Father Gnu finally got the news he'd been asking of Mother Gnu for weeks—"Any gnus today?" Yes, there's a new gnu at the Bronx Zoo.

### LUXTON PRESENTATION

Warrant Officer J. A. Betts, R.C.N., and Mrs. Betts were guests of honor at a recent dance in Luxton Hall. On behalf of the members of the Happy Valley Badminton Club and the Happy Valley Parent-Teacher Association, J. H. Downard, paid tribute to Warrant Officer Betts' interest in community activities and presented a monogrammed leather brief case to Mr. Betts and a writing case to Mrs. Betts and Miss Patricia Betts. Warrant Officer will leave today for the east.

The annual Colwood and Happy Valley school meeting will be held Saturday evening at 7.30 for the purpose of electing one trustee for a three-year term and an auditor for one year. At the request of Dr. G. F. Amyot of the Provincial Health Office, the Provincial Board of Health will present to the people of the area an important matter in connection with the public health nursing service.

The British Houses of Parliament were about to be moved from the Thames river at one time. The Duke of Wellington, in 1840, protested the proposal and pointed out that the buildings could never be surrounded by a mob if they were situated on the river.

sign between the uniforms of officers and ratings. In Canada the materials are closer together and in most garments, there is very little variation in design.

## NEWS from the SCURRAH SALE

Slacks as they should be. Lots of room and lots of becoming style. Beautifully cut. Patch-pocket jackets, with or without belts. Lovely plain shades and stripes. Convertible necks. \$7.95

**COAT NOTE!** Dress Coats, values up to \$29.75. Black, Navy, a few smart colors. \$19.95

## ON NOW

AT 728  
YATES ST.

### Malta Bags 6 Nazis

CAIRO (AP)—Six Axis aircraft were reported in a British command today to have been destroyed in continuing day and night raids on Malta, while large fires were left Tuesday night by R.A.F. medium bombers which attacked Messina, Sicily.

### Characteristics

A review of the characteristics of the peoples of the world revealed that Americans are the most progressive; English are the most conservative; Chinese, most mysterious; Australians, most sporting; Hungarians, most musical; Irish, most religious; Italians, most romantic, and Germans, most methodical.

### Dutch Teachers Rebel

LONDON (CP)—Reporting open rebellion among Netherlands teachers against the Nazi educational system in Holland, the Netherlands news agency said today hundreds of teachers had been imprisoned or dismissed and numerous institutions, including Delft College, closed in mid-term.

### Individually Plucked

Natives pluck every one of the millions of small coffee berries off the bush individually in Central America and in Colombia.

No manufacturer's designations are used to identify R.A.F. aircraft. The majority of their planes are given names depicting of their duty.

**IT'S TRUE! THAT NEW MIRACLE INGREDIENT  
DOES MAKE NEW IMPROVED  
OLD DUTCH CLEANSER  
50% FASTER!**

• BRINGS FASTER SPARKLE  
• NEEDS NO HARD RUBBING  
• CUTS GREASE LIGHTNING-FAST

The minute you try New Improved Old Dutch you'll realize the difference! It contains an amazing new ingredient that dissolves grease almost like magic! It cleans 50% faster! Gives you double-action cleaning! You'll be surprised how easily sinks, stoves, and bathtubs become sparkling... immaculately clean.

New Improved Old Dutch is safety itself! IT DOESN'T SCRATCH... because it's made with flaky Seismotite. So, say good-bye forever to hard rubbing and old-fashioned scouring. Switch to the New 50% Faster Old Dutch and you'll never use anything else. What's more, you'll be saving money, too, because a little goes so far.

**OLD DUTCH**  
MADE IN CANADA

**Today we're using  
blended shortening**

says Martha Logan

MARTHA LOGAN: "... nutrition is so important it's really exciting to know that this new blended Jewel is nutritionally more valuable."

BETTY: "I'd say so! It certainly creams easily, Miss Logan."

MARTHA LOGAN: "Doesn't it, Betty? Careful, Jane, only one cup of sugar in this recipe... chop up the bananas now!"

JANE: "My, it's a good thing Jewel blends so well with everything! I mean we wouldn't want to waste these good things, would we?"

MARTHA LOGAN: "Certainly not! In wartime, we must never risk spoiling anything we cook. Remember, girls, what I told you before about Jewel... it's risky to pay less... needless to pay more."

**Have you tried the new**

**SWIFT'S  
Jewel  
SHORTENING  
IT'S BLENDED**

Clip out and try this sugar-saving Jewel recipe for **LIGHT BANANA CAKE**

1 1/4 cups sifted pastry flour, or 1 1/2 cups sifted all-purpose flour, 2 teaspoons baking powder, 1/2 teaspoon salt, 5/8 tablespoons Jewel Shortening, 1 cup finely-chopped banana, 1/4 cup milk, 1 teaspoon pure vanilla.

Measure flour and add baking powder and salt. Beat and add eggs, then add banana. Sift in dry ingredients alternately with milk, combining after each addition and including vanilla with last of milk. Turn into greased and floured 8-inch square pan. Bake in moderate oven, 350°, 45 minutes.

Lighter cakes, flakier pie crusts are the reward for using the new blended Jewel. It creams faster; blends better and, of course, is odorless and tasteless in cooking. Send 10c and a carton top for the fascinating Jewel Recipe Book and get a pound of Jewel in the familiar red carton! Swift Canadian Co., Limited.

**A blended shortening  
that blends better...**

## School A.R.P. Use Misunderstood Here

A special committee was set up by the City School Board Wednesday night to iron out any misunderstandings that might exist over accommodation available for A.R.P. posts in four city schools—Victoria West, Quadra, George Jay and Sir James Douglas.

The group will include the chairman of the board, the building and grounds committee, the municipal inspector, supervisor of buildings and grounds, and Trustee Dr. G. A. B. Hall.

The action was taken after Dr. E. W. Boak had explained the desire of the medical branch of the A.R.P. to have facilities immediately available at first aid posts. Equipment would be resorted to and set up in an emergency, he said.

He understood Victoria West's domestic science rooms had been set aside entirely as an emergency hospital, but was told by the board only one small room had been allocated for that specific

purpose and that domestic science would be taught in the main room. Under existing conditions, Dr. Boak said, facilities were lacking at the other schools. He asked that provision be made to have equipment in readiness and under lock with the responsible A.R.P. official in possession of the key. He requested that some definite arrangement be made to avoid confusion should this region undergo an air raid.

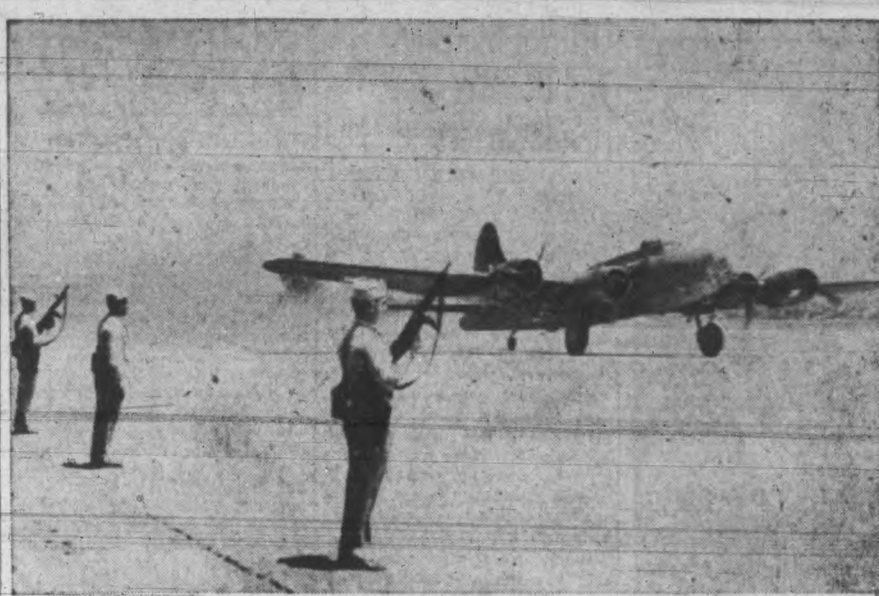

The committee will also act as a standing group on A.R.P. matters.

Prize-winning students in the city schools' Victory Garden contest were given awards donated by the Sir James and Lady Douglas Chapter, I.O.D.E., by Trustee Mrs. A. S. Christie at the meeting. First prize went to Margaret McIntyre, who received \$5. Second prize of \$3 was presented to James Akenlose, third of \$2 to Bernice Silsby, and prizes of \$1 each were given to Ernie Unwin, Jack Kane, Mervin Beaveridge and Sylvia Day.

"The time you have spent on your school gardens will prove of great help to you. You have performed a service to yourselves, your city and your country," Mrs. Christie said as she expressed hopes for bigger and better gardens next year.

The suggestion that school board employees granted leave of absence to join the services be given three months following discharge in which to resume their posts was advanced by Trustee Austin Curtis as the board heard a city letter announcing council policy of giving servicemen the postwar privilege of applying for city jobs.

The board members smiled at letters they received from the fuel division of the Wartime Prices and Trade Board. The communications outlined price maximums and quoted an Ottawa official to the effect plenty of wood would be available. The smile became broader when board secretary T. L. Christie announced no tenders had been received for wood needed by the schools. He added wood dealers were disinclined to undertake contracts with the city when they could get

**MOTORISTS WON'T WANT TO USE THE HIGHWAYS SOON, ANYHOW**—Something new in landing fields are the eastern coast's new highway landing strip. Shown here is a bomber landing on a newly completed flight strip 7,000 feet long and 100 feet wide from which interceptors and long range aircraft can operate. It's merely a matter of widening the highway and you have a new base.

a better price from other consumers.

On the recommendation of the finance committee insurance covering \$450,000 worth of board property was ordered renewed with agents who now hold it.

Retention of Al Prescott for continued school band instruction through the summer holidays and his re-engagement at a higher salary for the coming school year was authorized on the recommendation of the band committee.

Structural arrangements have been made in Victoria High School basement for coal storage, Trustee J. S. McMillan, building and grounds chairman, reported in the course of an outline of work done at the different schools.

Mrs. Ina Colley was appointed janitress at Kingston Street School and the domestic science room at South Park. Her duties will start Sept. 1.

Brock Robertson was awarded the contract to reshingle roofs at Quadra Primary for \$556, at Oaklands Annex for \$535 and Sir James Douglas Annex for \$310.

The resignations of Miss Tressie Gilliland, Quadra Street, and Miss Daphne Williams, North Ward, whose weddings are scheduled shortly, were accepted and the board expressed its appreciation for the excellent service they had rendered as teachers. G. A. Brand, High School, and Joe Roberts, Oaklands, were granted leave of absence for the duration. The former will serve with the R.C.A.F. as a navigation officer, the latter with the Canadian Navy. The usual conditions covering seniority and superannuation will be observed.

Tribute to the excellent work done by Robert D. Reid, Josephine Spicer and Frank Martin in making animated maps of B.C. for a Toronto exposition contest, was paid by the board, which also extended congratulations to the Central Junior High art teacher, Miss Frances Brown, for her guidance on the project.

At the suggestion of F. E. Winslow, chairman of the citizens' recruiting committee, and Major-General R. O. Alexander, the need for men in the reserve army will be drawn to the attention of male city staff members by the board.

The board expressed thanks to Dr. Hugh Clarke for his offer to examine teeth of students starting school next September, during one week this month.

Victoria's air cadets were honored for the distinction they achieved during the recent air cadet show here. A letter of congratulation will be sent to Cadet Officer P. C. Routley and his assistants.

The board expressed appreciation for the war work done by city students during the year. A list of articles made for the services as well as children's garments made for young bomb victims, and a report on salvage collection during that time was filed by Trustee Mrs. Christie. In addition, she noted, \$2,238 had been collected for the Red Cross in the schools and students had subscribed \$8,650 in war savings.

**Now Presumed Dead**  
Sgt. John Herbert Walker, son of Rev. R. E. Walker and Lady Emily Walker, 1157 McClure Street, previously reported missing in a Royal Air Force casualty list, is now, for official purposes, presumed dead in the R.C.A.F.'s latest casualty list from Ottawa.

**SERIOUSLY INJURED**  
In the same list L.A.C. Alfred Henry Pledge of Victoria is reported seriously injured with the R.C.A.F. "somewhere in Canada."

## U.S. Stamps on Letters Posted in Canada

EDMONTON (CP)—Construction of the Alaska Highway is making international history and as a small sidelight it also is making Canadian postal history. For the first time in this country, United States postage is "good" on letters mailed in Canada.

Canadian postal regulations have been relaxed and American army engineers on the northern section of the Alaska Highway are permitted to mail letters bearing United States stamps. One such letter was received at a newspaper office here.

## City Offers Oak Bay School Problem Answer

The City School Board Wednesday night offered Oak Bay a solution to its educational problem of providing accommodation for young students at a nearby school without forcing them to make tedious journeys to and from one of the two elementary schools in that municipality.

The solution came in the form of a resolution which would let primary grade pupils resident in the Gonzales Point and adjacent regions attend Margaret Jenkins School through the establishment of a contra account. Under the scheme, Oak Bay would be charged \$75 a year for each student it sent to the city school and that amount would be deducted from the bill for each city student who attended an Oak Bay school. The figure represents the exact per capita cost of education in the city.

The plan was presented by H. L. Campbell, municipal inspector, and endorsed by the board following reading of two letters from Oak Bay residents who said severe hardships would be imposed on their young children if they had to go to Monterey instead of Margaret Jenkins School. One parent wrote his seven-year-old child would require 45 minutes to make the trip to the Oak Bay class, going over Gonzales Hill, while she could reach Margaret Jenkins in 15 minutes.

A letter from the Oak Bay School Board suggested a former reciprocal agreement be resumed by which Oak Bay would care for city students and the city would meet the needs of those in Oak Bay who found Victoria schools more convenient.

**LOW TAXES, FEW SCHOOLS**  
Board Chairman Trustee F. G. Mulliner noted lack of convenient school accommodation for young children was one of the prices Oak Bay residents paid for low taxes. He saw no reason why the city taxpayer should be burdened with the costs of educating the municipality's children and remarked that Oak Bay needed more schools.

The board accepted without dissent the proposal to have the contra account established. The plan would also entail formal notice from the Oak Bay board of the names of each Oak Bay student who came under the plan. By means of it, trustees noted, neither the city nor Oak Bay would be carrying an overhead in costs, since any difference would be made up in payments by one corporation for the excess of students it sent to the other.

Under existing arrangements, pupils from points outside the city may attend city grade schools on payment by their parents of \$75 per student each school year.

## Jailed for Statements

PRINCE ALBERT, Sask. (CP)—Haldor J. Bjornson, 49, of Weirdale, Sask., 40 miles northeast of Prince Albert, was sentenced Wednesday to 12 months in jail for making statements prejudicial to the safety of the state contrary to Defence of Canada Regulations.

Bjornson, chairman of the salvage committee in Weirdale, was found guilty of uttering the statements while under the influence of liquor.

Gottlieb Dorn, 37, also of Weirdale, was sentenced to eight months in jail on a similar charge.

The watch industry in Switzerland was active in 1941, despite raw material shortages and other war-time difficulties, according to the Swiss press.

## WOULDN'T CROSS STREET FOR \$100

You know those people—maybe you are one yourself—who come home after work so tired, they can't be lured out of their seats. They wouldn't even go across the street for \$100 to see the greatest show on earth. It's not over-work that always makes a man or woman feel this way—although they often feel themselves that it is. A tired, listless condition like this is often the result of low blood count due to simple anemia. A low blood count often may mean you haven't enough red blood corpuscles. Try Dr. Williams' Pink Pills. They are world-famous for the help they give in increasing the number and strength of red corpuscles when they have been weakened by simple anemia. Besides, Dr. Williams' Pink Pills are fortified with Vitamin B<sub>1</sub>, an important aid in promoting appetite and keeping nerves and intestinal system normal when you feel listless and "off" because of a deficiency of this vital element. Don't wait. Be sure—try Dr. Williams' Pink Pills today.

## What a Life!

Why don't the girls fall for this lad from the navy? His eyes are so blue, and his hair is so wavy! He has to perspire, and will to the end, But someone should tell him he need not offend.

Both tonight with LIFEBOUY  
The ONE soap especially made to prevent "B.O." (Body Odor)

## THESE 'SWEETS' HAVE VITAMIN C!

When children want candy—or you need a quick and nourishing "lift"—rely on oranges and orange juice! Their sweetness comes from natural sugar that supplies food energy fast. More important—oranges help you with vitamin C. A 6-ounce glass of juice daily should fill your needs for vitamin C. It helps in the normal development and maintenance of teeth and gums. If you're shopping less often, buy more oranges each time. They keep. Have plenty for juice, sugar-saving desserts, and other uses. Those trade-marked "Sunkist" are the finest from 14,500 co-operating growers in California and Arizona.

### Dodgers Whip Brewers

MILWAUKEE (AP)—Home runs by Joe Medwick and Pete Reiser accounted for three runs Wednesday night to give the National League champion Brooklyn Dodgers a 7 to 6 win over Milwaukee in an exhibition game.

The Brewers, current occupants of third place in the American Association, staged a two-run rally against Fred Fitzsimmons in the ninth inning and had the tying run on second base when the game ended.

## Getting the Most From Your GAS RANGE

Save precious vitamins—and your own good health—by following these simple hints on how to cook . . . with gas:

1. Cook vegetables in small amount of water; too much dissolves out nutrients.
2. Use utensil with tight-fitting lid to keep steam inside; it shortens cooking time, prevents evaporation of water.
3. Start vegetables in boiling water; resume boiling quickly, then lower flame.
4. Cook amount needed for meal. Do not peel, dice or shred vegetables too long before cooking, and never soak; exposure to air and soaking in water reduces vitamin content.
5. Cook the vegetable only until "tender crisp."
6. Avoid stirring; it lets in air.
7. Never use soda in cooking vegetables; it destroys vitamins. Color is better preserved by shorter cooking and using less water.
8. Cook what vegetables you can in the skin, many minerals being directly under the skin; otherwise peel thinly.
9. Use cooking water in vegetable or tomato juice cocktail or to enrich soups, sauces, gravies.
10. Serve vegetables immediately. Overcooking impairs flavor, texture, destroys color and causes the loss of vitamins.

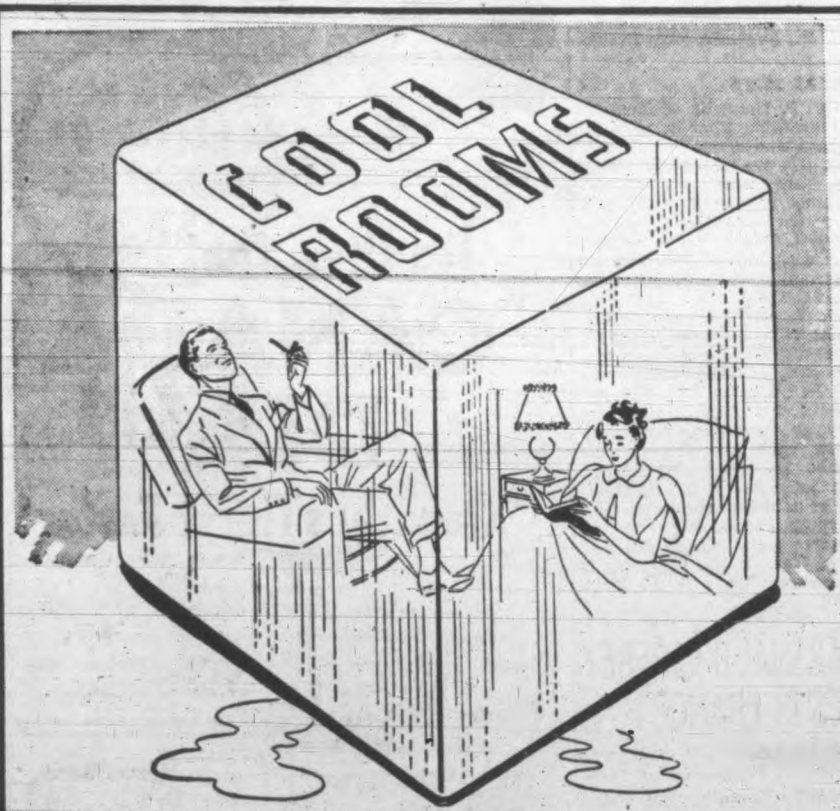

**SAVING IS SERVING**  
Buy War Savings Certificates Regularly

### Gas takes care of your hot water problem, too—

A handy Tank Water Heater gives you hot water at the touch of a match—a whole tankful whenever you need it. This compact little heater saves time, saves work—is ready for service at any time of the day or night.

## Leisurely Living at Vancouver Island Resorts

By E. L. FORBES

"It's perfect! Just the spot to relax and rest." A tired mother sighs blissfully as she watches her children trooping off for a round of fun on the sands at one of Vancouver Island's beach resorts.

Why should I discover this spot before you? questions the young business woman as she dives into one of the island's beautiful lakes. "You've got everything!" raves the young matron from the prairies, who has just come to live in Victoria. "Lakes... rivers... beaches... mountains! It will take me months to explore this island! I don't know why anyone would want to go far away for a vacation."

These are just a sample of the raves we get from day to day, as the holiday season comes to its peak. Well merited remarks, too, for Vancouver Island has a wealth of scenery and vacation resorts that appeal to all.

Outdoor fun is definitely first at all the holiday spots, but the emphasis this year is also on leisurely living, which can't be beaten as a refresher. It's the kind of holiday that sets you up for the hard work that is to come.

Situated on the east coast of Sooke Harbor, just 25 miles from Victoria, you'll find SEA GIRT. Private beaches. Many lovely trails on the acreage. Bathing, rowboats, tennis, indoor and outdoor games. Grand food.

Up at Comox there is THE ELK HOTEL, a seaside country inn with a charm all its own. Fresh butter, eggs, Jersey cream, fruit and vegetables from neighboring farms. Delicious, well cooked meals.

Fishing... climbing... Alpine flowers... the Forbidden Plateau! At CROTEAU CAMP, right on the plateau, the aim is to be courteous to everyone, to provide wholesome, well cooked meals, and to take care of your every requirement.

A frontage on the Island Highway and on Parksville beach at

## Khaki Close-ups

By WILLIAM STEWART  
SOMEWHERE IN ENGLAND (CP)—The Three Rivers Tank Regiment might well describe itself as "one big family." It has more than its share of brother and father-and-son combinations.  
Maj. W. J. A. Wallace of Barrie, Ont., commands one of the unit squadrons, and his son Lt. J. F. Wallace, leads a troop... the brother combinations include Tpr. E. St. Louis, Cap de la Madeleine, Que., and Tpr. L. St. Louis, Beancourt, Que.; Sgt. Tom and Tpr. Roy Gilmore, Pointe Claire, Que.; Tpr. P. S. and Tpr. R. H. Sparks, Montreal; Cpl. T. W. and Tpr. F. A. Williams, Toronto.  
The four-star brother act consists of Sgt. L. Tpr. Albert, Tpr. Maurice and Tpr. Johnny Leclair, all of Montreal. There's a fifth brother Archie who hasn't come overseas yet. There are only two Kemp brothers, Tpr. L. and Tpr. E., of Alexandria, Ont.

**IN OTHER UNITS**  
Some of the tankmen have brothers in other units or services. Lt. W. B. Wadds, Toronto, is known as one of the "Three-Service Brothers," because brother Bob, a pilot officer, was with the R.C.A.F. "Demon" Squadron, and Lt. G. M. Wadds is a member of the R.C.N.V.R. attached to the Royal Navy.  
Tpr. B. Dennis, Niagara Falls, Ont., has a brother, L.A.C. Ken Dennis, training in Canada with the R.C.A.F. Pte. F. G. McBurnie, Halifax, has a brother, Pte. Russell O. McBurnie, with the Princess Louise Dragoon Guards. Pte. J. E. Scambler, Claire, Sask., has a brother, P.O. J. W. Scambler, a bomber pilot in Britain.  
L.-Cpl. G. D. Evans says he had

"two uncles and three cousins in the first war, and one uncle and two cousins in this one."  
Among the "originals" in the regiment are Maj. Wilfred Piche, Capt. G. Marchildon, Capt. James Walker, and Capt. J. G. G. Couture, all of Three Rivers.  
Namesakes in the unit are Capt. C. L. Smith, Edmonton, and Sgt. C. L. Smith, La Tuque, Que. The man who supplies the tankman with water when they are on the move is aptly named—Tpr. Joe Fountain, Mille Roches, Ont.  
**SOCIAL NOTE**  
Tpr. B. Horowitz of Montreal is celebrating what he calls the "second anniversary" of his wedding. He was married in London two months ago.  
Father of Sgt. R. P. Collins, Three Rivers tankman, was the late J. J. Collins, one of the first men to play hockey when McGill University students developed the game in 1880.  
Lt. R. W. Ryckman, White Plains, N.Y., battalion reconnaissance officer with the regiment, is known to fellow-officers as "Daniel Boone."  
L.-Cpl. G. Page, Shawnigan Falls, is a prominent competitor in the regiment's track and field events. His best record time for eight miles was 57.16. He points out he used to make better time at sports events staged by the overseas forces during the first Great War. L.-Cpl. Page, who is 48, served then with the Engineers.

**MARSHAL D'ESPEREY DIES IN FRANCE**  
VICHY (AP)—The death was announced Wednesday of Louis Franchet d'Esperely, last living Marshal of France with the exception of Chief of State Marshal Petain.  
He was born 86 years ago. Educated at the St. Cyr Military Academy, he was commissioned as a lieutenant in 1876. He served with the Tonkin Expedition in 1885. By 1907 he had become a lieutenant-colonel, and in 1911 was made a general of division. In the first Great War he commanded the 5th Army in 1914, and a group of armies in 1915, first the eastern group, then the northern. After the war he was inspector-general in north Africa.  
He was made a Marshal of France in 1921.

## Now It's the Boys Who Kiss The (Soldier) Girls Goodbye

By FRANK LOWE

AN EAST COAST CANADIAN PORT (CP)—Now, with all these women's war services, it's the boys who kiss the girls good-bye.

Here, in this jumping-off spot for battle, fond farewells are as common as khaki, but up to a few months ago it was usually the girls who were choking back the sobs as their men departed for the wars.

However, since uniformed women have taken their places in the three services, often it is the men who now stand on station platforms and docks, waving hankies at departing trains or boats.

It was a bit unusual when the first group of Canadian Women's Army Corps girls left here to take officers' training courses in Central Canada. Many of the women were accompanied to the station by men—several of them in uniforms who looked a little as the train pulled away, only a little weaver by the girls' assurances they would be "back soon."

## AWAY ON A TROOPSHIP

But when a troopship swings out into the stream no such jaunty assurances serve to brighten the prospect and the partings are sometimes poignant. Especially now that the men have to clamber back down the gangplank, leaving aboard a wife, sister or sweetheart.

One case concerns a Royal Canadian Air Force officer and a nursing sister. As they stood in the lounge of the transport

just before it sailed, they appeared merely to be fellow passengers, striking up a shipboard acquaintanceship.

But when the fussy little tugs hooted at the troop-laden behemoth, warning all they were due to sail, the officer picked up his cap, twisted it for a moment and, after a quick look around the lounge, kissed the nursing sister good-bye. She accompanied him to the gangplank, where they paused for a moment. "Be good," he said, "and look after yourself."

"I will, dear," she promised, as people from time immemorial have promised before taking a trip, "and I'm sorry you aren't coming, too."

## NOT SNEEZING, EITHER

Once more they kissed this time without the cautious glance—and then the officer hurried down the gangplank, without even a backward look.

The nursing sister watched him disappear in the shadows of the cavernous waterfront sheds, probably disappointed because he gave no further sign.

But had she followed him down onto the pier, she would have seen him stop in the first dark shadow, shake a handkerchief out of his sleeve, and treat his nose to an undeservedly vicious blow.

## Unlikely

Waitresses rarely stay long enough in the hotel business to learn it properly, and thus are unlikely to replace men in dining-room service, according to most hotel managers.

SHE: Not too sweet. That's why I like Canada Dry.

HE: Yes, it's more refreshing because it's "DRY."

It's Dry...that's why  
**"CANADA DRY"**

## Quenches Thirst Faster

\* Appetite revives—real refreshment is yours in a jiffy—that's what the distinctive DRY tang of Canada Dry does to your thirst. It mixes deliciously with other drinks, adds zest to meals, steps up energy. Drink this fifty-year-old Canadian favorite at any time—day or night. You'll find its pure Jamaica ginger more invigorating... more healthful... and Canada Dry is a safe drink for every member of your family.

## Letters to the Editor

Correspondents are reminded to use one side of the paper only, to write legibly, and to keep their communications within a reasonable length. A short letter, with a point convincingly emphasized, has a better chance of publication than one with labored platitudes.

### SUNDAY WORK

"The seventh day is the Sabbath of the Lord thy God, in it thou shalt do no manner of work..." Having waited in vain for a long time to see a protest from some abler pen than mine against compulsory Sunday labor, I feel it is my duty, as a Christian who believes that we must live according to God's laws, to write against this practice.

There is a "Lord's Day Act" on our statute books, based upon the fourth commandment; yet we have the government ordering a seven-day week. Has the "Lord's Day Act" been repealed?

It is a well-known fact that more and better work will be accomplished in a six-day week with one day for rest, than by working seven straight days. This applies to animals and machinery as well as to manpower.

This war is admittedly being fought, on our part, to maintain Christian civilization and freedom and to destroy the evil in the world, and the ruthless domination of evil dictators. Can we ever hope to defeat this evil by the employment of wrong methods?

Of what use are prayers for God's help if we continue to break His commandments.

Our prayers, until we put God's laws back into practice, are only a farce and a mockery; and we shall continue to suffer defeats and reverses which have followed us consistently since this war began.

It is time for Christian people to wake up, and make their voices heard, while there is yet time.

E. W. ABRAHAM.  
"Tritea," 1125 Faithful Street.  
(Editor's Note—All the foregoing philosophy notwithstanding, the war on Christianity is a seven-day business; a six-day defence of it would please Hitler).

### PAPER "BOTTLE-NECK"

May we ask your co-operation in placing before the public the facts concerning our paper "bottle-neck."

Certain forms of war work are not exactly one glorious round of pleasure, and preparing paper for market is like tea without sugar, a war condition.

The source of supply is the home, and it is there that the work of preparing tightly tied parcels of newspapers and magazines should be undertaken. Unfortunately there is a tendency to delegate this work to the volunteers of the Salvage Corps who are trying to force a Niagara of paper through a small pipe.

While the workers tackle the job with amazing courage, the difficulty is increased by many workers leaving to go berry-picking, or on summer holidays, and from other causes.

The point has now been reached where we cannot possibly accept any paper goods except tightly tied packages of newspapers, magazines prepared separately the same way, and parcels of flattened cardboard cartons. Any other paper or cardboard whatever will be politely refused by our drivers, or if it arrives at the Cloverdale Depot, will be put in the incinerator. The only remedy for the above situation is for more workers to do their bit by coming regularly to the depot and helping. We will furnish street car tickets or some form of transportation.

A. H. PEASE,  
Honorary Manager,  
Salvage Corps of B.C.

### ESQUIMALT AND A.R.P.

May I have the privilege, through your valuable paper, of expressing my disappointment with the action taken by the Victoria City Council in refusing to grant the Esquimalt A.R.P. permission to hold a Tag Day in Victoria to assist in raising funds to purchase an ambulance.

It would appear that the city fathers have no concern for the safety of the hundreds of city residents who are now employed in Esquimalt, in most vulnerable positions, and who, in the event of enemy action, may require the services of the Esquimalt A.R.P. and ambulance.

The people of Esquimalt have always responded generously to the many Tag Days held, for other purposes, in Victoria, and who will continue to do so despite the shortsighted policy adopted by the city council.

ANNE McVIE,  
President of the Esquimalt Community Club,  
322 Lyall Street, Esquimalt,  
B.C., July 4.

### "CHRISTIAN SOCIALISM"

We want to know what is meant by "conscripted of finance." If it means that the government is going to take over all chartered banks to make them units of the Ministry of Finance under government control, there is some sense to it. If it means that all privately-controlled public utilities are to be made non-profit

units of the Ministry of Public Service, then we progress both during and after the war. If it means that the government is going to take over all privately-controlled, profit-seeking insurance companies to make them nonprofit units of the Ministry of Home Security, then we usher in true Christian Socialism.

If the government is to be the sole creator and printer and controller of all money and credit paper in our country, we can win the war and the peace without debt to any international banks and financial monopolies. If with all these urgent reforms we forever absolutely abolish interest on money and usury of all kinds, we can be a people free from money dictatorship and capitalists polluting our lives today.

C. W. DEANS, M.Sc., M.E.I.C.  
3049 West 27th Avenue, Vancouver, June 25.

### JAPS ON THE ALEUTIANS

Dr. Liu surely sounded a timely note of warning to the Allied Nations in pointing out that in Asia manpower is actually a surplus, all they need being heavy armament, as they are manufacturing their own smaller arms. He was right, too, to remind us that the Japs in the Pacific are equally as dangerous as is the rest of the Axis gang in continental Europe—in the Atlantic.

Surely we do not require any further substantiation of the verity of his contention than the fact that our Pacific enemies can land on the Aleutian Islands, and stick there. The bald fact of their being able to do this should be a quite sufficient warning to all soldiers and civilians alike on this North American continent and Mexico, at this stage of wholesale slaughter and destruction, not to be caught with "too little, too late!"

H. P. WINSBY.

June 21, 1942.

### GASOLINE FOR SIDE TRIPS?

While listening to my radio tonight I was astonished to hear the radio announcer over station KOL advise Americans to make a visit to Harrison Hot Springs, British Columbia, for their vacation, informing them that there would be "plenty of gas and oil when they get over the border for side trips."

This certainly came as a great surprise to me, as only this week, my husband, who uses his car solely for business purposes, had to return his ration book, and was told that after review he had been cut down to a category. Although this will work a hardship on us, as good citizens, who wish to help in this war in every way we can, we are more than willing that this should be so, but when one hears that there is plenty of gas and oil for tourists to make side trips, it makes us feel that there is very little equality of sacrifice, and in view of the fact that our good neighbors over the border are having at this very moment a nationwide campaign for the salvage of rubber, even to suggest that people should make trips of this kind at all, seems to me, to say the least most inconsistent, and certainly tends to create confusion in the mind of the general public.

I trust that our oil controller will do something to put an end to this kind of publicity. When we are fighting with our backs to the wall, it is time to get down to brass-tacks, and really begin to do something about a total war effort.

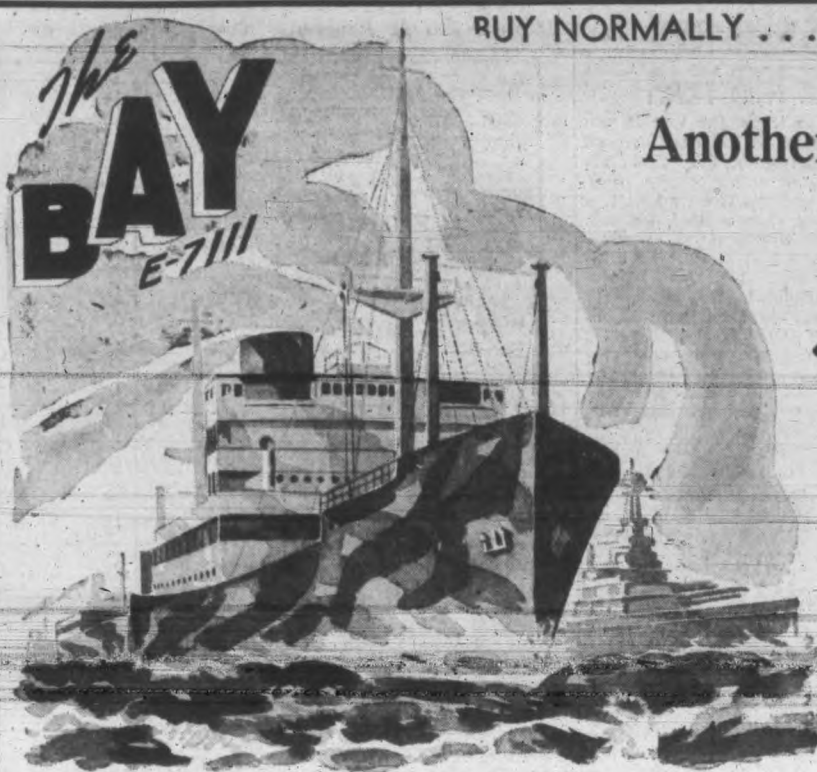

IDA HEAD (MRS.)  
3354 Harriet Road, Victoria,  
June 20.

### MILK FOR BRITAIN

A cheque for \$2,000 has been forwarded to the Kinsmen Milk for Britain Fund from the Victoria Club. This includes \$1,100 or more which was raised at the United Nations Victory Fair, recently held at the Crystal Garden, in which we worked along with the women of the Women's Canadian Club. The employees of Yarrow's have been very generous to the Milk for Britain Fund and there has not been a month pass that we have not received a substantial cheque. Many citizens also have sent cheques for smaller amounts, and we are indeed very grateful for all they are doing to assist us in reaching our objective. It is amazing how much in such a short time the milk bottles which are distributed throughout the city are bringing in. The merchants have co-operated wholeheartedly in allowing us to put these milk bottles in their shops, and I think before the year is out this source alone will provide more than other of our undertakings.

R. A. PARK,  
Chairman, War Services Committee, Kinsmen Club of Victoria.

"Fiddlesticks," air pressure gauges for quickly checking pressure of tires, are carried by army officers in the manner of a swagger stick or riding crop.

# Sports Mirror

By PETE SALLAWAY

SENTIMENT never pays off and that was the case in Tuesday night's ball game between the American League All-Stars and the All-Services Squad at Cleveland. Those Americans, under the crafty leadership of Marse Joe McCarthy, packed just too much class for Lieut. Mickey Cochran's boys. Cochran's line-up represented insufficient power and the pitching of Bobby Feller and the outfielders failed to take up the amount of slack expected.

Feller's miserable exhibition was pretty sound proof of just what is going to happen if our top ranking athletes once they get into the armed services. It only stands to reason the boys are going to lose their timing and suffer terribly from lack of first class competition. An athlete may go into the services a champion but is a pretty safe bet he will come out just another competitor. By the time this war is over a brand new group of champions will have come up from the ranks of the present-day youngsters.

When United States soldiers return to their homeland after seeing service in Australia it is quite likely they will attempt to introduce a new sport. It seems the Americans are being instructed in football under Australian rules. It is quite possible some of the American footballers will seek to introduce some of the new sport's rules into their own popular code.

The Australian game is advertised as the fastest football game in the world. Australian rules differ from all other football in that each team is distributed throughout the field and that the ball may not be carried far more than 10 yards without being bounced. In looking over the rules we would describe the game

as a cross between soccer and English rugby. Each team comprises 18 players, there is no off side rule and no division of the field which is 200 by 150 yards. A rugby ball is used and the game is started by bouncing the ball in the centre of the field. The player carrying the ball may be tackled with hands but only on the hips. There are no scrums. The teams score by kicking the ball through or above an opening between middle goal posts (six points). Between goal and outer posts or above opening between same (one point). The goal posts are minus crossbar, each flanked by a smaller bar. In Australia the game is played by both amateurs and professionals and from its general description we would say it produces a carload of action. That would certainly suit the Americans.

Well, we went on that fishing trip out to Brentwood Tuesday and believe it or not came back with a couple of nice spring salmon. There is a fine run of salmon at the Arm right now and hardly a boat goes out that doesn't return with fish. Some of the anglers even report they are hauling in cohoes. The springs are in fine condition, indicating a new run of fish.

We were forced to take quite a ribbing from Harry Peard, one of the boathouse operators, for our remarks about the heavy tackle necessary to catch fish at Brentwood. He figured we were attempting to belittle the sport offered at this popular spot. That was not our intention, but for Mr. Peard's information we caught those two springs, dragging the bottom of the Arm. And we know there was plenty of wire line out as our right shoulder has a distinct stiffness today from reeling in those several hundred feet.

## All-star Ball Nets \$230,000

## Final League Drive

The major leagues enter the back stretch of their pennant race today without much to run for except the fun of running.

The double all-star shows, which raised \$100,000 for the baseball equipment fund for servicemen, \$70,000 for army and navy relief and sold \$60,000 in War Savings Stamps, marked the approximate halfway point in the schedule.

At the intermission the Brooklyn Dodgers were eight games in front of the St. Louis Cardinals in the National League and the world champion New York Yankees had a four-game advantage over the Boston Red Sox in the American.

This makes it apparent to all parties concerned that there no longer is any argument about the eventual pennant winners in either major league and none of the baseball celebrities who gathered in New York and Cleveland for the all-star contests cared even to intimate that the Dodgers and Yankees could be headed.

This situation leaves the other clubs in the big top to find what ever satisfaction they can in scrambling for places in the first division and the fans to turn their attention to the competition for individual honors.

In regard to the game with the services there was no secret that the "red tape" encountered from officials, the difficulty of selling the show to the fans and the fact that the game itself was no test—the American League All-Stars won 5 to 0—made it doubtful that the venture would be undertaken on the same pattern next year.

It was apparent that the prominent baseball players who now are soldiers and sailors have been doing more than playing baseball since entering the armed services. Most of them have been glad when they could play once or twice a week.

### COAST LEAGUE

Squaring up Tuesday night's 4 to 1 defeat, Seattle Rainiers pounded two Portland pitchers Wednesday night for 14 hits and an 8 to 2 victory in Coast League baseball at Portland.

The Rainiers erased a one-run Beaver lead gained in the opening inning with three tallies in the third off four hits, added another run in the fifth and three more in the sixth to definitely sew up the game.

Ad Liska yielded 11 hits in five and two-thirds innings and was charged with the loss, while Carl Fisher, Seattle chucker, held the Beavers to seven hits but walked six.

The San Diego Padres hammered out 17 bingles to set down the league-leading Sacramento Solons 10 to 2 at San Diego. Los Angeles, in second place,

## Boudreau Smacks Home Run

Lou Boudreau, youthful manager of the Cleveland Indians, springs from home plate after crashing Morton Cooper's second pitch for four-bagger, in first inning of the All-Star baseball game at New York Monday night. Walker Cooper, catcher for his brother, is pictured. Umpire is Ballifant. American League All-Stars defeated the Nationals 3 to 1.

## Jack Stratton Gets Gift From Ball Team

Members of the Pitzer and Nex senior ball team gathered at the home of Fred Freboni, Wednesday night, on the occasion of a stag party for one of their members, Jack Stratton, who will be married tonight.

On behalf of the players and management, Manager Bert Nex presented the popular outfielder with a smoking receiver. Stratton replied suitably, thanking his teammates for their present and good wishes. Stratton will be missing from the line-up for a week but will be holding down his regular position following his return to the city from his honeymoon.

## Canadian Sport Snapshots

## Golf Pros Hit Hard

By SCOTT YOUNG  
TORONTO (CP)—Wartime conditions have slapped Canadian golf professionals where it hurts—in the pocketbook—by decimating the ranks of cash-nonaflant pupils and equipment purchasers. But along the glamor front everything is serene. There is more Canadian tournament money kicking around than in peacetime, boosting hungry pros in the department worth least in steady income and most in publicity.

Three Canadian money tournaments, one for Canadians only,

are coming up within the next six weeks: The Canadian open (Toronto Mississauga, Aug. 6-7, \$3,500), Lions Gate open (Vancouver Shaughnessy, Aug. 21-22, \$2,500), and Millar Trophy (Toronto Islington, July 23-24, \$1,000). The Lions Gate open is new, with gate receipts destined for the R.C.A.F. benevolent fund and prize money to be donated by three Vancouver sportsmen, George Norgan, Al McLennan, and W. A. Charlton.

NEED PUBLICITY  
We should have more of these all-Canadian affairs in which one of our boys is bound to pick up the change. The catch is that the public won't pay as much to see Bob Gray or Ken Black as it will to watch Ben Hogan or Paul Runyan. The difference is not so much in playing ability as in publicity, and until we have enough well-publicized Canadian affairs to keep Canadian pros frequently in the public eye, the situation will not change.

There was a rumor around Winnipeg last week-end that Ten To Ace had died. As in the old joke, the report was grossly exaggerated. Reg. (Winnipeg Blue Bombers) Threlfall told Herb (Winnipeg Tribune) Manning the report he would be willing to take a Montreal coaching job has no foundation. Bill (Kingston Whig-Standard) Walsh reports that Al Sutphin, boss of Cleveland Barons in the American Hockey League, knows as little about hockey possibilities for the next season as anyone else. Apparently it all depends on what the Canadian government rules on passports for athletes. Johnny Lifford had four seconds in his corner during a bout in Halifax the other night. You'd have to buy a program to tell it from a bridge tournament. And you guessed it, Lifford lost.

## Junior Davis Cup Tennis

## Canada Battles U.S.

NEW YORK (AP)—While many sports are curtailing their programs because of the war, the United States Lawn Tennis Association is offering something new—an invitation junior Davis Cup series with Canada Aug. 22 and 23.

Five United States juniors will compete against a like number of Canadian youths at the swank Seignior Club, some 50 miles from Ottawa.

Because the U.S.L.T.A. has no machinery set up to determine the nation's five best juniors, and there is hardly time to sponsor a deciding tourney, a committee of which Dr. S. Ellsworth Davenport Jr. of New York is chairman, will make the selections from recommendations by the various districts.

One U.S.L.T.A. official, who said he liked to do his speculating in anonymity, wonders if

Francisco Segura, the 21-year-old Ecuadorian, isn't about the best amateur racket welder in the country right now and a definite threat for the U.S. title.

IMPRESSIVE RECORD  
Segura, who is studying at Miami University to be a diplomat, is a master of the two-handed grip. Because he is not a citizen he was not ranked by the U.S.L.T.A. last year although this is his second consecutive year at the Florida school.

He started the 1942 season by whipping Bitsy Grant in the Sugar Bowl tourney, recently beat William Talbert of Cincinnati, No. 10 nationally, on the latter's home courts in the tristate meet, and last week downed Ladislav Hecht, former Czechoslovakian Davis Cupper and No. 2 in the east to Sidney Wood, for the Brooklyn title.

## Smart Receiver

National League baseball veterans say Al Lopez, above, of the Pittsburgh Pirates is one of the finest handlers of pitchers in baseball today.

# Pitzer and Nex Blast Ball to Smother Flyers

## Bud Ward Wins Medal Honors

SPOKANE, Wash. (AP)—Cpl. Marvin "Bud" Ward, in the army now but still the "Mr. Big" of amateur golf, fired his latest challenge to the field Wednesday by winning medal honors in the western amateur championship, of which he is the two-time and defending titleholder.

When the chips were down and real action was necessary, he whipped in with a 68, four under par, to post a 36-hole total of 141. It gave him medal laurels by two strokes in the tournament he has dominated the last two years.

Cpl. Ward, stationed with the 488th Central Postal Directory, was behind the pacemakers when he teed off for the second round. He had carded a 73 on opening day.

Marsh Hammond, a local crack-shot, ran second to Ward in the qualifying race. He had rounds of 72-71-143 to show some of the country's best name golfers how it is done.

Two topnotchers were bracketed at 145—Bruce McCormick of Los Angeles and Wilford Wehrle of Racine, Wis. The former is an ex-national public links champion and Wehrle has held the western amateur title and last year won the Mexican championship from a field that included Ward.

Among the other big timers who qualified for today's match play rounds were Cpl. Pat Abbott of Los Angeles and Bill Welch of Houston, Tex., past and present national public links champions, respectively. Each had 76-73-149. The lone Canadian entry, Dave Dixon of Vancouver, qualified by adding a 74 to his 77 of Tuesday for a 151.

Harry Givan of Seattle, leader at the halfway mark with a 69, ran into a flock of trouble in his second round and soared to an 80. He qualified nevertheless.

## R.A.F. Wins Cricket

Undeclared R.A.F. cricketers didn't spoil their record Wednesday when they played Spencer's in a midweek game at Beacon Hill Park and defeated the store players by five runs and two wickets. The final score was 67 to 62.

Spencer's were all out for 62 runs, having batted first. Griffin scored 14 to lead their batters, while Gibbs, Hurn and Oakman got 10 each. R.A.F. started off shakily, the first three wickets being taken for three runs. However, Webb and Boulter scored 30 between them and the airmen had no trouble passing Spencer's total.

## Warneke Peddled To Chicago Cubs

ST. LOUIS (AP)—In the midst of a desperate drive to overtake Brooklyn Dodgers, St. Louis Cardinals sold lean Lon Warneke to the Chicago Cubs for the waiver price of \$7,500 in a deal that puzzled baseball fans.

The 33-year-old veteran pitcher, last member of the famed Cards' band of cutups, has not been fully effective this season. Late rounding into form, he has won six games and lost four, scarcely the record of a has-been.

Last year, Warneke won 17 games, including a no-hit triumph over Cincinnati, and lost only nine. His all-time major league total is 183 victories and 108 defeats.

He was probably the highest salaried man on the St. Louis roster with a contract calling for about \$15,000, and one critic was unkind enough to say the money might have influenced the decision to let go.

However, officials of the team were positive in saying the deal was based solely on other considerations. They said Warneke was slipping and his home run ball was coming up with too frequent regularity.

"With a weak-hitting team, that home run ball is a dangerous thing," one official said. "Our other pitchers have been stingy with runs. We believe we have excellent starting replacements in John Beasley and Murry Dickson.

## Wallaces Beat Leaders

VANCOUVER (CP)—Wallaces piled up a midgame lead that Burrards could not overcome and handed the Intercity Box Lacrosse League leaders an 8 to 6 defeat Wednesday night.

Wallaces enjoyed a 3 to 1 advantage at half time and by the end of the third quarter were leading 7 to 2. A four-goal drive by Burrards tied the count.

Reg Phillips led Wallaces scorers with two goals and Johnny Dale was high man for Burrards, also with two.

## Noel Morgan Tops Heavy Hit Barrage

Paced by first baseman Noel Morgan with five for six, Pitzer and Nex unloaded a cargo of base hits at the ball park Wednesday night to smother R.C.A.F. under a 14 to 3 score and move back into third place in the standings, half a game up on the Navy.

Manager Bert Nex of the gasmen had been complaining about the absence of hits among his players in recent games, so they must have decided to get out and show him how they could really batter the apple. Pitzer and Nex gathered in a total of 16 safeties, four of them for extra bases, from the combined offerings of Bert Appley and Percy Switch. Other big stickers in addition to Morgan were Manager Nex and hurler Tommy Musgrave, the former with three for six and Musgrave with three for five.

To add insult to injury, big Musgrave had one of his good nights and the Flyers got to him for seven scattered hits. As a matter of fact "Mussy" pitched no-hit no-run ball for five and two-thirds innings. He struck out eight and walked one. Appley, big left-hander, started for the Flyers but elected to move into the outfield after four innings, after giving up eight hits and as many runs in four frames. Switch gave up the same number of hits but they went for only six runs.

Pitzer and Nex lost no time jumping into the lead with a four-run spurge in the first inning. Morgan started the fireworks by beating out a bunt down the third base line. Barnswell followed by running out a weak roller towards first. McGeechey was hit by a pitched ball to load the bases with nobody out. Murray popped to the catcher. Stratton worked Appley for a walk, forcing home Morgan. Nex lined a single over short sending Barnswell and McGeechey across the plate. Barber struck out. Stratton trotted home on a wild pitch for the fourth run.

## APPLEY LEAVES

Gasmen got another run in the second when Musgrave hit the wire on top of the centre field fence for a single and went all the way home on Morgan's double into deep left field. The winners went on another batting rampage in the fourth for three runs and that marked the end for Appley on the mound.

Switch, who replaced him, got along nicely for one inning but in the sixth Pitzer and Nex treated his offerings rough and a flurry of base knocks sent five runners across the plate. Gasmen wound up their scoring with a lone run in the eighth.

Flyers finally broke into the score column in the eighth when Appley singled and second sacker McDonald rifled the ball over the centre field fence for his second home run in five days. The air force boys added another run in the ninth.

Harper, Pitzer and Nex third baseman, pulled off the fielding highlight when he raced a city block to make a sensational one-handed spear of a foul tip off the bat of McDonald in the first inning.

Friday night's game will see the league-leading Victoria Machinery Depot tackle the fast-improving Army squad. Play will start at 6:30.

Short score:	R.	H.	E.
Pitzer and Nex	14	16	1
R.C.A.F.	3	7	4
Batteries—Musgrave and Nex; Appley, Switch and Davis.			
Umpires—Restell and Newman.			

## Winnipeg Twilight Racing Big Success

WINNIPEG (CP)—Twilight racing, inaugurated on Winnipeg and St. Boniface tracks this year, is held responsible for major increases in both attendance and betting at Whittier and Polo Park tracks during the 28-day racing meetings which closed at Polo Park Saturday.

Official figures, released Wednesday by Glen L. Cousley, provincial commissioner of taxation, showed paid attendance of 37,444 persons at Whittier, compared with 24,512 in 1941, while paid attendance figures at Polo Park jumped to 39,146 from 32,212 last year.

The provincial treasury will collect about \$100,000 in taxes on admissions and in commissions on betting, which totaled \$2,399,296 at both tracks.

# DiMaggio Draws Bronx Cheers

## Yankee Slugger Figures He Has Slump Whipped

NEW YORK (AP)—In the Bronx, they are specialists at the Bronx cheer, and Joseph Paul DiMaggio is learning all the varieties this season, because the citizens are letting him have the entire list every-time he pokes his head out of a dugout.

Joe is the first to admit that DiMaggio is having his worst season at bat since he arrived on the big league scene, but he figures there's nothing wrong with him that a base knock or two wouldn't cure. And what's more, he wouldn't be at all surprised if the three singles he whacked in the two all-star games just concluded didn't indicate that he may be coming out of it.

If that's the case, and he starts to rattle the American League's fences again as he's done for half a dozen years, the Yankees' lean slugger expects the fans will stop making those noises at him, because they make his ears ring and other things.

"You can't blame 'em too much for booing," Joe said after the American Leaguers had whipped the Nationals Monday night, in the course of which he had nearly been blown off the field by the jeers every time the customers got a look at him.

"I felt good in there. I got

JOE DIMAGGIO

### 'Moonrider' To Be Shown at Dominion

Thomas Mitchell, that genial movie actor, has his first role as a villain in 20th Century-Fox's "Moonrider," which comes to the Dominion Theatre tomorrow.

"There is nothing half way about my character," said Mitchell. "I'm the most sadistic and brutal fellow who has come along in a long time in the movies. The role is a challenge to me after so many years of being the pleasant philosophical type."

In one scene in "Moonrider," Mitchell elaps and pummels Ida

Lupino, and then stuffs her into a bait tank, supposedly dead. Mitchell even wrote some of his own dialogue to make his part crueler and more sadistic, but it was turned down by Producer Mark Hellinger.

Twentieth-Century-Fox's new star, Jean Gabin, is co-starred with Ida Lupino in "Moonrider," with Thomas Mitchell and Claude Rains in featured roles.

A recently patented "scriptoscope" projects writing or diagrams, made on cellophane, from a desk-top lens onto a screen, enabling a teacher to illustrate his lecture while seated at his desk.

### 'MEXICAN SPITFIRE OUT WEST'

An amusing slant is taken on the age-old conflict of business versus marriage in "Mexican Spitfire Out West," the latest in the hilarious "Spitfire" series starring Lupe Velez and Leon Errol, and now at the Rio Theatre.

The newest offering has to do with the efforts of a young man to land an advertising contract from an important English distiller. But, between his wife's scatterbrained escapades in Reno, where she is pretending to get a divorce, and his uncle's attempts to aid the business deal by masquerading as the British client the advertising man's life becomes as hectic as a nightmare.

Directed by Leslie Goodwins from the screen play by Charles E. Roberts and Jack Howlsey, "Mexican Spitfire Out West" presents in other important roles Donald Woods, Elisabeth Risdon, Cecil Kellaway, Linda Hayes, and Lydia Bilbrook.

### 'SUSPICION' OPENS ON YORK SCREEN

A mystery romance, told in an arresting new way, forms the basis of "Suspicion," in which Cary Grant and Joan Fontaine are co-starred. It is hailed as one of the most dramatic offerings of the year, and is now being shown at the York Theatre.

With a modern English setting, the film revolves about the hectic wooing and hasty elopement of a wealthy, sheltered girl who doesn't learn until after the honeymoon that the man she has married is a penniless ne'er-do-well.

But she is so wildly in love with him that nothing can shake her loyalty—not even at last apparently convincing evidence that he is a murderer as well; even that he is scheming to bring about her death, in order to inherit her fortune!

### 'ADVENTURES OF MARTIN EDEN'

Glenn Ford recently returned to Hollywood from San Francisco after an experience he never expects to be equalled in his lifetime.

Although dead for 25 years almost to the day, Jack London, the great man of literature, spoke to him for almost half an hour! Ford had gone to San Francisco to acquaint himself with the world of Jack London before starting the title role of London's lusty "Adventures of Martin Eden," at Columbia. The powerful new drama, story of a militant seaman's struggle for literary recognition, also headlines Claire Trevor, Evelyn Keyes and Stuart Erwin at the Oak Bay and Plaza theatres.

#### CADET THEATRE

Gay College background for "Rise and Shine." Centres of social life for youth, hub of its pleasures and good times, are the colleges. Here, in addition to education, young men and women gather to enjoy life.

With this in mind, the 20th Century-Fox studio set out to create its newest musical funfest, Mark Hellinger's "Rise and Shine," the current film at the Cadet Theatre, with a background of college life. Surely, if the young people of the nation find so much to enjoy there in real life, arousing, true-to-life comedy could be made.

Natives of India are so skillful at trimming and splitting mica that no machine yet developed can substitute satisfactorily for their hand labor.

#### Where to Go Tonight

ATLAS — Bob Hope and Madeleine Carroll in "My Favorite Blonde."

CADET — "Rise and Shine," starring Milton Berle.

CAPITOL — On the Stage: Major Bowes' Amateurs; "Stars of 1942."

DOMINION — McDonald Carey and Jean Phillips in "Doctor Broadway."

OAK BAY and PLAZA — Glenn Ford in "Adventures of Martin Eden."

RIO — "Mexican Spitfire Out West," starring Lupe Velez and Leon Errol.

YORK — Cary Grant and Joan Fontaine in "Suspicion."

"WE CARRY ON TO CARRY YOU"

IN COMFORT

Save your gas and use the BLUE LINE TRANSIT CO.

CLAIRE TREVOR, left, and Evelyn Keyes are the lovely rivals, who try to tame the adventure-seeking heart of Glenn Ford in Columbia's "Adventures of Martin Eden," now at the Oak Bay and Plaza Theatres with Stuart Erwin. The new romantic drama is based upon Jack London's dynamic, brooding masterpiece.

### Religions, Castes No Barrier To Self-rule, Asserts Hindu

By DARSHAN SINGH SANGHA

The colonial gentlemen of the British Empire have carried the so-called "white man's burden" in Asia for a long time and undoubtedly it hurts them to carry on the burden indefinitely. But because the gentlemen of the empire are remarkably well paid for their job, they are not ready to relieve themselves of the burden even if it hurts.

The burden, i.e., the colonial people, on the other hand, say that they can walk now. But says England: it is impossible, your legs would give way, you would just die in the gutter. The burden declares that to be a lie.

Such is the controversy between Sir Robert Holland and myself. And indeed we belong to the opposite poles.

No one can deny the fact that the Indian people have different religions, castes and creeds. But to assert that it is a barrier towards the goal of independence is a great distortion. The people of India are united in their will to achieve freedom.

#### WHY INDIA WAS HELD

Very few Englishmen are honest and outspoken about their real attitude towards India. Many hide their imperialist motives behind sweet words. But only a few years ago, a prominent British official, Joyson-Hicks, very truthfully stated, "We did not conquer India for the Indians. We conquered India by the sword and by the sword we shall hold it. We hold it as the finest outlet for British goods."

So it is with the above as the guiding star that the policies of Britain are motivated towards India. By over-publicizing and drum-beating of the internal differences of the Indian people, the imperialists intend to convey to the average mind in Europe and America the impossibility of any democratic solution of the Indian problem.

As long ago as in the middle of the 19th century, Lieut.-Col. Coke of the British army in India, writing about the future principles to be followed in India, said: "Our endeavor should be to uphold in full force the (for us fortunate) separation which exists between different religions and races, not to endeavor to amalgamate them. 'Divide et Empere' should be the principle of the Indian government."

The above has remained the fundamental law of British power. In the last century British power favored Hindus to Moslems and at present a tiny fraction of Moslems is used as a shield against the spearhead of the national independence movement.

#### CONGRESS ONLY REPRESENTED

Sir Robert stated that the national congress stands for Hinduism and the Moslem league represents all the Moslem people. But the facts are that the Indian National Congress is the only political organization of all the Indian people, fighting for democracy and national independence. It is not a communal organization of Hindus alone. It has a membership of 70 million people, out of which only four million can afford to pay their dues. The congress embraces peoples of all castes, creeds, classes and religions, including thousands of Moslems. The present president of the congress is himself an orthodox Moslem.

On the other hand, the Moslem League is an organization of a handful of religiously fanatic Moslems and is supported by the feudal landlords, the privileged and British power, which wish to maintain the status quo.

FIRST TO BE RADIOED FROM EGYPT, the photograph above shows Alexander Kirk, left, American Minister, and King Farouk of Egypt, in the royal palace in Cairo. Previously, Near East photos had to be relayed through London. New R.C.A. service requires only 10 minutes to complete a transmission—(Radiophoto).

### Bette Davis Stars 'In This Our Life'

While Bette Davis had been playing the most dramatic scene of her career in her current Warner Bros. picture, "In This Our Life," which will open at the Capitol Theatre tomorrow, Charles Coburn, who played the scene with her, had been resting comfortably.

Supposed to be ailing, Coburn was bundled up tidily in a big

chair as Bette played the dramatic sequence. He only had one line of four words in the whole scene. "I feel just like the cymbal player in a symphony orchestra," Coburn said, "who has to wait and wait till he gets his chance to make a noise."

"Think how I feel," Bette countered, "Like the whole orchestra."

#### ATLAS THEATRE

Bob Hope pictures are always events, but the new Paramount comedy chase, "My Favorite Blonde," the new arrival at the Atlas Theatre, is even more so that. It's just about as close to

being a laugh riot as it's possible for a film to be. Hope's co-star is blonde, beautiful and terrific Madeleine Carroll who proves herself a superlative comedienne. Bob sails his gags across and Madeleine bats them back with a speed that makes the audience limp. Laugh piles on laugh and thrill piles on thrill without pause in this latest, fastest and funniest of the Hope pictures.

The leatherwood bush, now rare, was once used for cordage, basket-making, harness, and as a leather substitute.

## Sacks Running Short

## New Headaches Looming For City Sawdust Dealers

Already beset by freight charges and ceiling prices set by the Wartime Prices and Trade Board, another headache is looming up for Victoria sawdust dealers.

In setting the ceiling prices, the Wartime Prices Board's order specified that the price quoted was for sawdust delivered to the customer's usual place of delivery, in other words, his sawdust bin.

Before the order became effective, the situation was simple. The sawdust dealer could buy sacks, employ men to fill them with the sawdust and dump the fuel, sack by sack, into the bins. The new price he can ask for sawdust, \$4.50 per unit for No. 1 fir during July and August, makes this impossible, while a shortage of sacks is an additional factor.

## STREET DUMPING

To solve the problem some Victoria dealers have established the policy of dumping the sawdust in bulk and shovelling it into the

bin. Householders have objected to their gardens being littered and in consequence the fuel has been dumped on the street.

The new headache has its origin in a city ordinance which makes the littering of streets an offence and city law officers have expressed the opinion that dumping of sawdust would constitute just such an offence unless it was shoveled into the bin immediately and the residue effectively disposed of. Difficulties would be increased on a windy day when the sawdust would be blown about over a wide area of the street and into nearby gardens.

There is a faint and distant hope of alleviation in the sack situation. Chief source of supply of sacks in the past has been the hemp fields of India, from which no more can be expected. In the U.S., however, development of a cotton sack heavy enough to take coal, wood or sawdust has been developed and production in bulk is forecasted.

## Labor Urges Good Houses

The Victoria and District Trades and Labor Council wants to see Wartime Housing Ltd. construct homes in the James Bay area for V.M.D. workers, but it wants to see decent homes which will remain as a credit to the neighborhood when the war is over, according to a statement from Charles Chivers, president, following discussion of the housing question at a labor council meeting Wednesday night.

The actual cost of houses in Esquimalt was too high, Mr. Chivers said. He quoted reports from reputable local contractors who said those structures could have been put up for \$2,200 instead of the \$3,300 which was announced as their price in Ottawa.

The labor council emphasized the fact the houses should be built to conform to city by-laws and should not be demolished at the end of hostilities. Demolition, delegates felt, was a waste of money. Mr. Chivers also said local contractors and local help should be used in the construction.

Building trades delegates were appointed to interview Columbia Pictures Inc. leaders to request that work done here be carried out by union labor.

## WANT AMBULANCE

A report was given to the effect the V.M.D. had been requested to have an ambulance available at its plant to rush injured workers to hospital without delay.

A meeting with S. Sigmundson was asked by the council's transportation committee to discuss possible amalgamation of transit services in Victoria for the duration of the war.

Reports were received on rehabilitation study and a letter was ordered sent to Hon. J. L. Ralston, Minister of Defence, asking that soldiers' pay be raised to \$50 a month to conform with the U.S. scale.

A Jacobs was appointed council delegate on the Y.M.C.A. board.

All members of the Loyal Orange Association, R.B.P. No. 538, L.O.B.A., J.O.A. and members of L.G.B. are requested to meet at the Orange Hall, Courtney Street, on Sunday evening, at 6.45, for the purpose of attending divine service at the Church of Our Lord, Humboldt Street.

## TOWN TOPICS

Three motorists were fined \$2.50 each in police court today on parking convictions.

Kenneth Bellanger, who pleaded guilty Wednesday to smashing a window of Andrew Sheret, at the corner of Blanshard and View Streets, was fined \$10 in police court today.

The monthly meeting of Saanich Central Liberal executive will be held Friday at 8 at Douglas Street headquarters. N. W. Whitaker, M.L.A., will address the meeting.

George Russell Kite was fined \$20 and \$2.50 costs and had his driver's license suspended for a month when convicted of reckless driving in Provincial Police Court Wednesday.

Damage to furniture and woodwork in the sitting-room was caused when a fire broke out in a chesterfield in the home of William Palmer, 1638 Hollywood Crescent, early Wednesday morning. The city fire department attended and put the blaze out.

James Church, age 65, 1515 Quadra Street, was taken to the Jubilee Hospital at 2.30 Wednesday afternoon suffering from a fractured collarbone after his bicycle had been in a collision with a car driven by Mrs. George Phillips, 430 St. Patrick Street, at the intersection of Quadra and Pandora. He was attended by Dr. E. W. Boak and taken home.

City children have been invited to make a tour of the Provincial Museum Saturday morning, under the auspices of the playground supervision committee of the Council of Social Agencies. The staff of the museum will conduct the children through the building, explaining the various exhibits. Any child in the city who would like to participate in the tour is invited to be at the entrance to the museum at 10.

## Crown to Appeal Hughes Decision

Appeal on behalf of the Crown, to the Supreme Court of Canada in the Hughes et al murder case, in which a young Japanese was killed in his Vancouver store some months ago, was announced today by Attorney-General R. L. Maitland, K.C.

"The recent judgment of the Appeal Court of this province lays down a new principle in murder trials in British Columbia," the Attorney-General said. "It has always been held that where two or more persons arm themselves for the purpose of killing, and if, during the prosecution of such a criminal adventure, the victim is killed, they are all guilty of murder."

"The Hughes decision seems to hold that if the victim resists and is accidentally killed by a gun carried by one of the hold-up men, the offence may be reduced to manslaughter."

"I think this is so important that it should be decided by the highest court, so I have given instructions to enter an appeal, although I am always reluctant to appeal in criminal cases on behalf of the Crown."

Mr. Maitland said a definite principle of criminal responsibility, heretofore recognized by the courts of B.C., is involved.

## Classify Talent For Film Here

Classification of local talent applying for work as extras and bit players in "The Commandos," to be filmed here and released through Columbia Pictures, Inc., continued Wednesday night and today as technical men proceeded with preparations for shooting of scenes next Thursday.

No Victoria actors or actresses would be definitely engaged until John Farrow, director, arrived, company officials said.

They expressed complete satisfaction with local assistants they had secured from architectural work, but faced difficulties in finding accommodation for certain technicians and skilled labor they must bring from Hollywood when filming starts.

Interest in the production was shown by the Victoria and District Trades and Labor Council Wednesday night as it appointed a delegation to interview officials with a request they engage union labor here.

"We want to do the right thing," Gordon Wiles, producing designer, said when he heard of the desire for an interview. He expressed appreciation for the co-operation he and his group had received and voiced opinion it would continue.

## Planning Now For Post-War Rehabilitation

Here to discuss postwar rehabilitation with the B.C. cabinet, Dr. Geo. Weir, former provincial secretary and minister of education, today told something of postwar plans being made by the Dominion government for settling discharged sailors, soldiers and airmen—women as well as men—into civilian life when peace comes.

Dr. Weir is now Dominion director of vocational training for discharged men and women, with headquarters in Ottawa.

Discharged fighters are given vocational training for a maximum of 52 weeks, or, under that, for the time they have been in the army. During that time single men will be paid \$9 a week and married men \$13.

Plans are also complete to allow discharged soldiers to continue university careers, if, in 15 months they can get their senior matriculation and if their higher education is in the public interest, Dr. Weir said. Thus a bright man or woman will have his or her university fees paid by the government and will be given the \$9 or \$13 weekly during the years in university.

"When the war is over we will need doctors and dentists and public health nurses and it is in the public interest to train people in these professions," Dr. Weir said. "It can also be in the public interest to train diesel and mechanical engineers."

In the last war and immediately afterwards, only disabled soldiers were given vocational training and assistance. This time every man and woman in the armed forces will come under the benefits whether wounded or not.

After the 1914-18 war 55,000 Canadian soldiers were trained at a cost of \$43,000,000.

"We want to avoid as far as possible the pitfalls of rehabilitation last time," Dr. Weir said. "Many men, after some weeks of training, changed their courses. In order to stop that we are now asking soldiers what they want to take up when the war ends."

Dr. Weir conferred today with Premier John Hart and tomorrow will interview the cabinet.

## Wartime Housing B.C. Incorporated

Wartime Housing Ltd. (1,000 shares N.P.V.) has been incorporated extra-provincially in this province, at the registrar of companies' office in the Parliament Buildings.

Head office is in Toronto and head B.C. office in North Vancouver.

British Columbia Bakers' Association, Vancouver, was incorporated under the Societies Act.

## Meet on Leave

Harry Short, left, and Edward Short, right, met after three years when they managed to get leave at the same time in England. Harry is with the artillery and Edward with the Seaforth's. Sons of Mrs. H. M. Short, 712 Vancouver St., and the late Mr. Short, who was a Sgt.-Major in the 5th Regiment, C.G.A., both men were born in Victoria where they have many friends, Edward being a star at rugby and football. Harry ran Short's Cafe on Douglas St. before he joined the army.

WILSON—Ven. Archdeacon A. E. de L. Nunn will officiate at 10.30 Saturday at funeral services for Frederick Emerson Wilson. Interment in family plot, Ross Bay.

KUSHMAN—Funeral service for F. Kushman will be conducted at 3.30 Friday at S. J. Curry & Son's Funeral Home. Rev. Fred Conley will officiate. Interment at Ross Bay.

GRAVES—Funeral services for Mrs. Emily Agnes Graves will be conducted at 2 Friday afternoon at Sands Mortuary. Canon F. A. P. Chadwick will officiate. Interment in family plot, Royal Oak.

SAUNDERS—Funeral services for Philip Caple Saunders will be conducted at 2 Friday at S. J. Curry & Son Funeral Home. Rev. Fred Conley will officiate. Interment at Royal Oak.

ARNOLD WALLINGER—Funeral services were conducted Wednesday for Mrs. Jessie Ariel Arnold-Wallinger. Rev. J. R. Fife officiated. Burial in family plot, Royal Oak. S. J. Curry & Son were in charge.

POMEROY—Funeral for James William Pomeroy, who died Tuesday, will be conducted at 2.30 Friday afternoon at the Thomson Funeral Home. Rev. James Hood will officiate. Interment in family plot, Royal Oak.

EVE—Funeral services for Victor Francis Eve will be conducted at 2.30 Friday afternoon at Knox Presbyterian Church, Sooke. Rev. Duncan Munroe will officiate. Interment at the churchyard cemetery. McCall Bros. Funeral Home is in charge.

GROAT—Rev. Frederick Landis officiated at the funeral service conducted Wednesday at McCall Bros. Funeral Chapel for William Carey Groat. Interment at Royal Oak. Pallbearers were W. Longworth, H. V. Harte, J. McDonald and R. Rundquist.

SOMMERVILLE—Rev. J. R. Fife conducted the funeral service at Hayward's B.C. Funeral Chapel Wednesday for Mrs. Edith Sommerville. Interment in family plot, Royal Oak. Pallbearers were J. T. Boulton, G. B. Killo, James Wallace and H. K. Taylor.

FOX—William Edward Fox, age 81, resident of Sooke for 32 years, died this morning at Colwood where he had lived the last year. He was born in California. He leaves three sisters and one brother in California. The body is resting at McCall Bros. Funeral Chapel. Funeral arrangements are pending.

PROTHEROE—Funeral services for Miss Edith Emille Protheroe were conducted Wednesday by Ven. Archdeacon A. E. de L. Nunn at St. Mary's Church. Interment in family plot, St. Luke's Cemetery. Pallbearers were J. W. Donald, V. Bagshawe, William George, H. B. Thomson, J. R. Rickard and R. S. Twining. McCall Bros. Funeral Home was in charge.

JAY—Funeral services for George Sam Jay, aged 36, who drowned at Lillooet Lake July 7, will be conducted at Sands Mortuary at 2.30 Saturday. Rev. M. E. Leung will officiate. Interment at Royal Oak. Mr. Jay was born at Shawanigan Lake. He had lived there all his life. He is survived by his wife, three sons and one daughter in Victoria; his parents, Mr. and Mrs. Sam Jay, at Shawanigan Lake; also five brothers and six sisters.

CAMERON—W. S. R. (Fred) Cameron, age 72, former general agent of Canadian National Railways, died at London, Ont., Tuesday. The funeral was conducted today. Mr. Cameron came to Victoria in 1917 and lived here until his retirement in 1935. Previous to coming here he worked for the Northern Pacific at Brandon, Man., and the Chicago Northwestern at Winnipeg. He leaves his wife at Alisa Craig, Ont., and one daughter, Miss Ellen Cameron, sister-in-law, R.C.N. Hospital, Esquimalt.

READMAN—Funeral services with full military honors, were conducted this morning for Rifleman Roger Readman of the Victoria Rifles of Canada, who was killed Tuesday when the Bren gun carrier in which he was riding overturned. Capt. James W. Kennedy celebrated Requiem High Mass at St. Andrew's Cathedral. He was assisted by Capt. J. Cimon and Capt. Laumon. The Garrison Band and the bugle band from the Victoria Rifles of Canada were in the procession to the C.P.R. pier. The body was forwarded to Montreal for interment. Sands Mortuary was in charge.

## Hotel, Auto Court Managers Say:

## Tourists Fewer, Come From Different Parts

Victoria hotel and auto camp managers, asked today how the war was affecting their business, said not only had the volume of their trade decreased on an average, but character of the trade had changed considerably since last summer.

Generally medium rate hotels in downtown Victoria report business as good this summer as last, even better than June, 1941. Hotels and auto camps further from town, and those in the adjoining municipalities, report their business much poorer than last summer.

Hotel and auto camp managers said that generally there had been an increase in the number of guests from Seattle and the Puget Sound area, there were fewer from Oregon and California, and just one now and again from eastern American states. The number of tourists from Vancouver, up-island centres, as well as the prairie provinces and Ontario has, if anything, increased.

## STAY LONGER

Tourists appear to be staying at hotels and auto camps a few days longer this summer. Auto camps find far more guests stay three or four days and the number of overnight guests has decreased considerably.

Both auto camp and hotel managers noted an increase in the number of honeymoon couples. William Clark, manager of the Dominion Hotel, said although he had a considerable number of tourists registered this summer, there were not so many as last year. The hotel, however, he said, had been quite well filled up. More tourists from the prairies and eastern Canada and fewer from the United States had been staying at the Dominion.

The majority of the American tourists staying at the Dominion, Mr. Clark said, were from Washington. The California clientele was much smaller this year.

## INDUSTRIAL WORKERS

Although there were a great number of elderly couples staying at the Dominion, Mr. Clark said the percentage of young people, especially factory and shipyard workers, was higher than in other years. Tourists, he said, seem to be staying slightly longer, the average time at the Dominion being two or three days. Few guests had cars. It appeared the guests were making the hotel their headquarters for seeing the city and district, rather than traveling up-island.

## WANT TO SEE BUTCHARTS

Mr. Clark said he had received numerous complaints from tourists because of sightseeing buses and taxis are no longer permitted to go to Butchart's Gardens. Many guests had heard about the gardens and were anxious to see them, but not having their cars, they were unable to get to the gardens.

Apartment hotels have, of course, been filled to capacity. The manager of the Beverley reports the hotel has been filled all spring, with working men, and officers and men of the forces. The few rooms available for tourists had been filled, too, the manager said.

Another downtown hotel manager said the last month had been better than June, 1941, the guests were staying about the same time as last year, and they hailed from Portland, San Francisco, Los Angeles, Edmonton and Calgary. He said the number of American guests was smaller than last year, but he was pleased with the numbers coming from the prairies.

Having advertised considerably up-island, he said, the number of guests from those centres, was, if anything, on the increase. The number of the hotel's commercial guests were about average, he said. The manager of the Oak Bay Beach Hotel reported his business had dropped off considerably this year and the greatest number of guests had been week-ending. Most of them had cars, he said, and spent their time seeing the city and playing golf.

## MORE WOMEN GUESTS

He noted an increase in the number of women guests, especially from the United States. He said he had noted no increase in the number of young people staying at the hotel.

One large downtown hotel manager reported business this year was 30 per cent below last year. He noted a big decrease in the number of A.M.E. guests. The hotel had lost completely a large trade of tourist parties from the United States and eastern Canada.

Business was pretty fair, the manager of the Windsor Motor Court said. He noted an increase

in guests from Vancouver. Some of the guests were staying as long as six days, which was unusual last year.

While this year an average of six cars came in a night, last summer 15 to 20 were turned away each night, he said.

The auto camp has a few permanent residents. The cabins will be filled this winter with tenants if the demand for houses is the same as last winter.

A few tourists staying at the camp have no cars.

The Craigflower Auto Court and Hotel manager reported business quite a bit slower than last year. The bulk of the guests had been from the Puget Sound area of Washington. The general trend during the last few days had been an increase in the number of overnight guests.

## A.R.P. Program

## Gas Protection In Every Block

Inspir. A. H. Bishop, civilian protection officer, today announced plans for extensive poison gas decontamination facilities for Victoria. The plans call for decontamination facilities in at least one building in every city block.

At present Victoria has only one poison gas decontamination hut, which is located on the grounds of Royal Jubilee Hospital.

Citizens with suitable basements will be asked to offer their premises for decontamination purposes should Victoria be subject to a gas attack. A.R.P. wards will conduct a survey of the city next week to determine suitable locations for installing decontamination materials.

Poison gases, which have been sprayed over cities from a height of five miles, not only attacked the respiratory organs and the face, but also burn the body. Gas masks give protection to the respiratory organs and the face, but they do not offer protection to the body.

Decontamination of the body must be done quickly. The treatment is simple.

## SPEED NECESSARY

"I feel that if persons had to wait until they arrived at the decontamination hut from the different points in the city," Inspir. Bishop said, "many would be past help and undoubtedly many would suffer from eye injuries or be blinded for life."

"Simple precautionary measures can be easily carried out in this city and I feel that it is the duty of all citizens to ease for those who may be placed in the unfortunate position of having been sprayed by any of the war gases."

"At the present time a large amount of chloride of lime is at our disposal and could be placed in small quantities in the suggested households where first aid treatment could and should be given," he said.

"Many houses have suitable basements with laundry tubs and an ample supply of water which could be used for the purpose of thoroughly washing the body of person or persons who may be contaminated. All that is required for their treatment is a good supply of soap and a bleach or chloride of lime wash."

Inspir. Bishop said a number of persons attached to the city A.R.P. had taken a full course on war gases, their effects and necessary treatment for the gases. Also working with the A.R.P. are Dr. C. S. Beals of the Dominion Astrophysical Observatory, Saanich, and Edward Savannah, B.Sc., former research engineer with the United States army.

## Maj. Hahn Visitor In Victoria Today

Maj. James Emanuel Hahn, D.S.O., M.C., president of the John Inglis Co., manufacturers of the famous Bren guns, is visiting Victoria today.

One of Canada's noted soldiers of the 1914-18 war and a prominent business executive, Major Hahn is registered at the Empress Hotel.

He is interested in many other things besides soldiering and manufacturing. He is vice-commodore of the Royal Canadian Yacht Club and a director of the Toronto Symphony Orchestra.

Now 50 years of age, Major Hahn was born in New York City of Canadian parents and graduated from University of Toronto and Staff College at Cambridge.

Harry P. Butler was fined \$25 in police court today when he pleaded guilty to a charge of dangerous driving.

## Summer School Hears Soldiers

Popular numbers presented by soldiers under the direction of Charles Bayley, Y.M.C.A. War Services, kept Summer School students so well entertained today they remained in the auditorium an extra 20 minutes after the regular closing time.

It was a happy, carefree type of program with enough serious numbers included to provide foils for the less classical selections.

Sgt. Paul Michelin led a sing-song and presented piano solos in his own distinctive way. Orchestral numbers were presented by the Rocky Mountain Rangers nine-piece orchestra under Cpl. Alec Day.

Eddie Docker, Kamloops, clad in Highland uniform, brought back shades of Harry Lauder in a series of Scottish songs of humor.

"Adoration" and "Czardas" were given skilful violin renditions by Albert Holt, Edmonton.

Miss Betty Fawcett, C.W.A.C., gave the women's army representation with two vocal solos to which accompaniments were provided by violin and piano.

The entertainment was completed by a display of magic by Rifleman Buzas, Victoria Rifles, Montreal, and by an appeal from Mr. Bayley to students of the school to assist in providing entertainment for men of the forces here.

Friday's program will be presented by Daphne Carapata, violinist, and Beth Morrison, pianist.

The opening dance of the school series will be held Friday evening.

## Air Cadets Off On Big Adventure

Two hundred Air Cadets of five Victoria and District Squadrons embark tomorrow afternoon on one of the adventures of their lives when they take the boat for Vancouver en route to Calgary to be attached to a Commonwealth Air Training School for two weeks.

The cadets will assemble on the south side of the Crystal Gardens at 12.45 under their respective squadrons and march to the C.P.R. depot at 1. In charge of the parade will be Air Cadet Sgt. Maj. Fred Donaghy, while individual squadrons will be commanded as follows: Oak Bay, Air Cadet Sgt. Steele; Victoria, No. 1 Flight, Air Cadet Sgt. Grant and No. 2 Flight, Air Cadet Sgt. Pearce; Esquimalt, Air Cadet Sgt. Harris; Mount View, Air Cadet Cpl. Van Horn, and the Rotary (Independent) squadron, Air Cadet Sgt. Collis.

At Vancouver the youths will receive two blankets to take to camp and will leave the ship directly for the Calgary train.

## Blast Wilhelmshaven With New Type Bombs

By ALLAN NICKLESON  
LONDON (CP)—R.C.A.F. squadrons, including some Wellingtons carrying "extra special" bomb loads, aided the R.A.F. in pounding the much-bombed Wilhelmshaven naval base Wednesday night.

Returning crews reported they were able to send growing circles of incandescent flames and dazzling flashes of high explosives after dropping their bomb loads.

The R.C.A.F. said at least two Canadian squadrons participated in the night's operations, and it was believed another also took part. Halifaxes and Wellingtons made up the all-Canadian formations, while numerous other Canadians flew with R.A.F. units.

There was no specific mention of the total number of planes involved, but the raid was described as "heavy." Only four planes were lost in this first attack on Germany since July 2.

The R.C.A.F. report on the operations termed the bomb loads as "extra special." There was no explanation of this phrase, but it is believed to indicate that some bombs were of the same super size as some of those which the R.A.F. previously carried into Germany.

The Canadian Halifax squadron reached the target early and saw on fires on its arrival. When it left the crews saw their fires reflected in the skies 55 miles away.

The two R.C.A.F. squadrons reported mighty bomb bursts and said all their aircraft returned despite severe flak over the target area.

"The nicest feeling I've had in a long time was when that big baby dropped," said Fit-Lt. J. D. Pattison of Toronto, who carried one of the extra special bombs for the first time.

The Germans attempted to confuse the attackers with dummy flare paths to draw the fire away from the objective, but it didn't work, said P.O. B.H. Maitland of Vancouver, who added he "didn't encounter any night fighters."

(P.O. Maitland is a son of Attorney-General R. L. Maitland.)

Fit-Lt. W. H. Sweetman, Kapuskasing, Ont., said the coast line was clearly discernible as he approached the port and added that he dropped his bombs "when over the target." His crew included P.O. C. F. Strong of Vancouver.

The trip was a farewell operation for some time for several Canadians, who will leave before joining the new French-Canadian squadron. Among them was Fit-Sgt. Laurence Swanson, D.F.M., Edmonton.

Another Canadian on the raid was Sgt. Jack Williams, Regina. Wilhelmshaven, besides being a naval base, is a centre of German submarine-building activity.

The raid on Germany followed five nights of bad weather. The only other raid there this month was the July 2 attack on Bremen.

In offensive-defensive operations, two German bombers were reported destroyed by British "intruder" pilots over German-occupied territory Wednesday night.

On the home front, the government said that "during the hours of darkness there was nothing to report."

(The Nazis in a broadcast from Berlin admitted Wesermünde and Wilhelmshaven were attacked Wednesday night by R.A.F. bombers. Damage was caused at both places by high explosive and incendiary bombs, DNB said. The news and propaganda agency claimed three of the attacking bombers were shot down.)

**Nazi Territory Raided 43 Times**  
LONDON (CP)—Weather conditions throughout June were more favorable for continuing the bombing offensive of the R.A.F. and R.C.A.F. than during May, and the bomber command operated territory on 13 days and 20 nights, while the air forces as a whole operated 20 days and 23 nights.

Bombers carried out 16 attacks against five military and industrial targets in Germany; five of them against the Ruhr, four against Bremen, two against Essen and one on Osnabrück.

The 1,000-bomber attack made against Cologne May 30-31 was followed by a 1,000-bomber raid against the Ruhr June 1-2, while another 1,000-bomber raid on Bremen was carried out June 25-26. The forces dispatched for these two principal attacks included Lancasters, Manchesteres, Stirlings and Halifaxes, while aircraft fighter and army co-operation commands in conjunction with bombers carried out diversionary attacks on German airdromes.

**DROPS TRICOLOR**  
One noteworthy feature was the flight of a Beaufighter coastal command plane over Paris June 12. At midday this aircraft flew at roof-top height up and down the Champs Elysees. As a tribute to Free France, a tricolor was dropped as near as possible to the Tomb of the Unknown Soldier, which lies under the Arc de Triomphe.

German aircraft flew over Britain 22 nights during June, seldom penetrating far inland. There was slight daylight activity on 16 occasions, chiefly in coastal dis-

## Wins HBC Governor's Award

At a mass meeting of the staff of the Hudson's Bay Company, held this week, A. J. Watson, store manager, presented the governor's selling award to the two outstanding sales people for the 12-month period ending May 31.

Miss Lily Tanner, above, was presented with the governor's shield, to be retained for one year, and will also receive a replica as a permanent trophy. Richard Eaton received second honors.

The two winners will leave at the end of the month for an all-expense-paid trip to Winnipeg where they will be entertained, together with winners from other stores of the company.

The award is made each year by the governor of the company to the member of the staff who has maintained the highest standard of salesmanship and customer service throughout the year.

Miss Tanner has been a member of the staff for 13 years and Mr. Eaton joined the company in 1921.

tricts. Norwich-Southampton and Weston-super-Mare each sustained short attacks, but the German effort against this country was in no way comparable with the heavy attacks carried out by the R.A.F. and R.C.A.F.

In all offensive operations against the enemy, 35 German planes were destroyed over Britain and 65 over Europe. In carrying out offensive operations against Germany and the occupied territory the R.A.F. and R.C.A.F. lost a total of 271 aircraft, of which none was lost over Britain.

**Death Sentences for 2**  
JOHANNESBURG, South Africa (CP-Reuters)—The special court trying suspects, charged with malicious damage in dynamite explosions at the Benoni post office, May 20, today sentenced to death Julian David Visser and Hendrik Stephanus Van Blerk. A third man, Theunis Jacobus Ferreira, was acquitted of the same charge.

**Fighter Planes Hit Nazi Airdromes**  
Fighter command aircraft at the same time attacked enemy airdromes and other objectives in occupied France. The Air Ministry said they intercepted and destroyed two German bombers.

The raid on Germany followed five nights of bad weather. The only other raid there this month was the July 2 attack on Bremen.

In offensive-defensive operations, two German bombers were reported destroyed by British "intruder" pilots over German-occupied territory Wednesday night.

On the home front, the government said that "during the hours of darkness there was nothing to report."

(The Nazis in a broadcast from Berlin admitted Wesermünde and Wilhelmshaven were attacked Wednesday night by R.A.F. bombers. Damage was caused at both places by high explosive and incendiary bombs, DNB said. The news and propaganda agency claimed three of the attacking bombers were shot down.)

## VIRILITY MARKS TANK TROOPERS

Strength, virility and resourcefulness are outstanding characteristics of Canada's tank troopers overseas.

Ross Munro, Canadian Press war correspondent with the Canadian army overseas, has made a vivid sketch of these doughty warriors in "Sansom's Rough Riders," an article in the current issue of Liberty.

Munro, who has spent two years in Britain with soldiers of the Dominion, says the typical Canadian tank trooper is a "sturdy, chunky youth who fits well into the turret . . . a grinning grimy warrior with a flourish and a swagger, and death in every gun in the turret . . . a commando in armored plating."

Soldiers of the Canadian armored division are drawn from every section of life in the Dominion and form the elite of the mechanized army. The writer describes tank fighters as men who want to drive harder and fight fiercer than anyone else in the division.

Major Gen. Ernest W. Sansom, commander of Canada's armored division, is depicted as a man who "looks and acts like a man among men." At 51 he has been

a soldier practically all his life and served with distinction in the First Great War.

He heads the youngest group of officers in the Canadian army. Few officers at divisional and brigade headquarters are more than 40 and most of them are in their early 30's.

**HAVE NEW IDEAS**  
Ross Munro, at 28, has spent much time with tank squadrons, but he says he feels "like a creaking veteran when some jollying subaltern wisecracks: 'You're far too old for this tank racket!'"

As might be expected these young men have developed a lot of ideas of their own in regard to tank fighting, and the Canadian writer deals humorously with their violations of the accepted practice in this very modern branch of warfare.

In five years with The Canadian Press, Ross Munro worked in Toronto, New York, Washington and Ottawa before going overseas. He crossed the Atlantic with the flotilla of United States destroyers which were traded to Britain and was the only war correspondent with the Canadian, British and Norwegian troops in the raid on Spitsbergen.

A salvage bell for submarine crews, based in design on the American bell which has been tested in navy rescue work, is owned by Sweden and is the only one of its kind in Europe.

**Says War to End For Sure in 1943**  
WASHINGTON (AP)—Predicting the war will end "probably in 1942 and unquestionably in 1943," Chairman Andrew May of the House of Representatives military affairs committee said today there will be no need for the United States army to induct married men or youths in the 18 and 19-year group.

The information on which he based the prediction, he told reporters, was "a military secret" obtained since the recent Russian reverses.

Best estimates based on the recent registration of 18 and 19-year-old boys, May said, shows there are approximately 3,125,000 in this group.

May expressed the view an army of 5,000,000 is all the country needs.

# TO HELP YOU SAFEGUARD YOUR WAR SECURITIES

You have made a patriotic investment in Victory Bonds . . . or War Loan Bonds . . . or War Savings Certificates . . . perhaps all three . . . to help your country in the war . . . and to help assure your after-war future.

To enable you to preserve your war securities from danger of loss by fire or theft, Canada's Chartered Banks offer a safekeeping service. Here are the details:

**VICTORY BONDS and WAR LOAN BONDS**—Take them to your bank . . . to any branch of any chartered bank . . . the bank will put them into safekeeping for you, will clip your coupons when the interest falls due, and will deposit the money to your name . . . If you haven't a bank account you can authorize the bank to open one for your convenience.

The total charge for this service and safekeeping is only 25 cents a year on bonds (no matter how many) up to \$250 . . . one-tenth of one per cent on amounts over \$250.

**WAR SAVINGS CERTIFICATES**—You can lodge them also with your bank . . . which will take them into safekeeping and for just one small charge cover the whole of the time (or any part of it) from purchase to maturity. Here is all it will cost you — not just for one year — but for 7½ years:

For a \$ 5.00 certificate . . . . .	\$0.10
For a \$ 10.00 certificate . . . . .	.15
For a \$ 25.00 certificate . . . . .	.20
For a \$ 50.00 certificate . . . . .	.25
For a \$100.00 certificate . . . . .	.50
For a \$500.00 certificate . . . . .	1.00

## No More Asphalt For Private Roads

OTTAWA (CP)—The present order curtailing use of petroleum asphalt for other than war purposes will mean no asphalt or road oil is available for private road work and that the amount available for shingles, other roofing materials and linoleum will be cut drastically. Oil Controller G. R. Cottrell stated here.

In the same statement Munitions Minister Howe said the order had been issued by Mr. Cottrell to conserve fuel oil "for the navy or for essential war purposes."

The order provides that no person shall, without a permit in writing from the controller, use any asphalt in the construction, repair or maintenance of any road, in the making of roofing materials, or in the manufacture or processing of briquettes, linoleum or oilcloth.

## Victoria A.R.P. Service In 3-District Practice

City Fireman William Webber carries Miss Mabel Sangster to "safety" down the 85-foot aerial ladder. Miss Sangster was "trapped" in a top-story room of the Alkazar Mansions, Fairfield Road and Linden Avenue. Capt. Bob Brindle was "safety" man on the ladder.

A.R.P. practices, staged simultaneously in three city districts Wednesday night, were conducted with efficiency equal to former practices. Insptr. A. H. Bishop, civilian protection officer, said today, but emphasized there was still room for improvement and A.R.P. services must continue to practice.

The practices, the last of a series of 10 district tests, were conducted in District 2A West, 3E and 4A. In all more than a score of "incidents" were reported by the three district wardens, A. H. Morrison, E. Parsons, and Mrs. R. Barclay-Ross.

"Casualties" were treated at first aid points at Sir James Douglas School, the decontamination centre at Royal Jubilee Hospital and St. Joseph's Hospital. Doctors and nurses examined the cases to determine the efficiency of the first aid work.

Insptr. Bishop had special praise for the clerical staff at the central control room, the medical staff of St. Joseph's Hospital, the Women's Ambulance Corps, the Canadian Auxiliary Territorial Service and the St. John Ambulance workers.

He also said auxiliary firemen and auxiliary policemen showed improvement but said the calls did not come in as fast as he had hoped. He emphasized, however, the staging of three district practices at one time naturally was more difficult than a single district practice.

Lieut. W. A. Lemon, R.C.N.V.R., who was in Britain during air raids, and is now posted to Esquimalt, attended the practice. He told A.R.P. officers what might be expected in the way of high explosive bombs.

Also attending the practice were G. King, N. McNaughton and G. Mead-Robins of the James Island A.R.P., who were eager to get information and suggestions for their A.R.P. service.

## Willkie to Visit Battlefields

NEW YORK (AP)—Wendell L. Willkie, 1940 Republican presidential candidate, said today he would seek official consent to visit the battlefields of Australia, China, Russia and other United Nations.

He did not indicate in what capacity he would make such a trip—as a civilian or an official observer—but it was understood he wanted to see at first hand conditions in the war areas.

Anyone knowing of the whereabouts of either one of these persons kindly advise the Canadian Red Cross at the above address or telephone B3139.

## MORE SALUTES IN AUSTRALIA

CANBERRA (AAP)—Henceforth all Australian soldiers must salute commissioned officers at all times whether on or off duty, except in a crowded thoroughfare or assembly, during exercises on the field, when on parade under

the immediate control of their superior or when precluded by the nature of their duties.

The decision was made Wednesday by the War Cabinet on the recommendation of Lt. Gen. Sir Thomas Blamey, commander-in-chief of Allied land forces, who reported the present situation in Australia and the distribution of troops at battle stations required a general improvement in the standard of discipline.

## Wore Uniform Because He Had No 'Civvies'

MONTREAL (CP)—J. J. Brownlee, who said he was a former staff sergeant discharged from the army because of injuries received in the battle of Trondheim, Norway, in 1940, told Judge Theberge Wednesday that "my uniform is the only clothing I possess," when he pleaded guilty to wearing a military uniform without authorization.

Brownlee said he was taking treatment for a head wound at Ste. Anne Military Hospital and being without funds to purchase

civilian clothing, had donned his uniform.

Judge Theberge gave suspended sentence and three days to secure civilian clothing "in recognition of Brownlee's excellent war record."

## 'The Lord Will Repay' Says Cardinal Hinsley

LONDON (CP)—Arthur, Cardinal Hinsley, Roman Catholic primate of England, declared Wednesday that the Nazis had "massacred 700,000 Jews" in Poland since the start of the war and added:

"Their innocent blood cries to Heaven for vengeance. The Lord

will repay in His own good time."

In a broadcast on the European service of the BBC, Cardinal Hinsley, who is Archbishop of Westminster, said the Nazis have done to death without the semblance of justice countless innocent people of the non-Aryan race.

"Everything religious, whether Jewish, Catholic or Orthodox, is the target of the pagan hatred of the Nazi agents in Poland," he declared.

Referring to Nazi religious persecution, Cardinal Hinsley said Pope Pius XII "is declared to have been convinced of the truth of reports he has received of the martyrs' fate of Poland."

## GUARD YOUR CREDIT AS A SACRED TRUST

The Symbol of Protection and Faith in Humanity

--The emblem of the National Retail Credit Association--an International, Mutual Organization of Merchants and Professional Men.

CREDIT is a sacred trust, to be guarded as a matter of personal honor!!

Since 1912, the National Retail Credit Association and cooperating Retail Credit Bureaus in the United States and Canada have encouraged the proper use of credit on this basis:

USE YOUR CREDIT--as a buying convenience--and pay all bills promptly by the 10th of the month or according to agreement.
